Revisiting the Concept of Defence in the Jus ad Bellum Johanna Friman, 2017-04-06 The purpose of the jus ad bellum is to draw a line in the sand thus far but no further In the light of modern warfare a state should today have an explicitly recognised and undisputed right of delimited unilateral defence not only in response to an occurring armed attack but also in interception of an inevitable or imminent armed attack This book however makes it evident that unilateral interception is not incontestably compatible with the modern right of self defence in Article 51 of the UN Charter Then again unilateral defence need not forever be confined to self defence only wherefore the book proposes that the concept of defence may best be modernised by a clear legal division into responsive and interceptive defence Since both threat and use of force are explicitly prohibited in Article 2 4 of the UN Charter this book further recommends that both responsive and interceptive defence should be explicitly excepted from this prohibition in Article 51 of the UN Charter The modern jus ad bellum should thus legally recognise a dual face of defence responsive self defence if an armed attack occurs and interceptive necessity defence if a grave and urgent threat of an armed attack occurs For without a clarifying and modernising revision the concept of defence will become irreparably blurred until it is completely dissolved into the ever shifting sands of war

Handbook of Phenomenological Aesthetics Hans Rainer Sepp, Lester Embree, 2010-03-11 Historically phenomenology began in Edmund Husserl's theory of mathematics and logic went on to focus for him on transcendental philosophy and for others on metaphysics philosophical anthropology and theory of interpretation The continuing focus has thus been on knowledge and being But if one began without those interests and with an understanding of the phenomenological style of approach one might well see that art and aesthetics make up the most natural field to be approached phenomenologically Contributions to this field have continually been made in the phenomenological tradition from very early on but so to speak along the side The situation has been similar with phenomenological ethics A great deal of thought about art and aesthetics has nevertheless accumulated during a century and a handbook like the present one is long overdue The project of this handbook began in conversations over dinner in Sepp's apartment in Baden Baden at one evening of the hot European summer in the year 2003 As things worked out he knew more about whom to ask and how much space to allocate to each entry and Embree knew more about how to conduct the inviting preliminary editing and prodding of contributors who were late returning their criticized drafts and copyedited entries and was able to invest the time and other resources from his endowed chair That process took longer than anticipated and there were additional unfortunate delays due to factors beyond the editors' control
