Science of Fasting for Healthy Body and Mind Ram Babu

Sao,2025-05-31 Fasting has been used for the body to get rid of waste buildup and also for religious and spiritual purification for centuries This book Science of Fasting for Healthy Body and Mind is very fascinating and an exasperating with its simplicity and its vastness Nearly every religious text from the Old and New Testaments of the Upanishads as well as Bible to the Quran calls upon followers to fast periodically as a rite of spiritual purification penitence or preparation for union with God Fasting advocates and claims that the practice can effectively treat serious health conditions like diabetes constipation arthritis and colitis to heart disease and depression In his practice he has seen fasting combined with improving the diet before and afterwards which eliminates lupus arthritis and chronic skin conditions like psoriasis and eczema He says he has

also seen fasting heal the digestive tracts of those with ulcerative colitis and Crohn's disease and lower blood pressure. Fasting followed by a vegetarian diet interferes with the immune system's activities especially if the immune system is overreacting as it does with and other autoimmune diseases. He cites half a dozen studies published in medical journals ranging from the American Journal of Physiology Endocrinology and Metabolism to the Scandinavian Journal of Rheumatology. Studies published in The Proceedings of the National Academy of Sciences and The Journal of Nutrition in 2003 showed that human beings forced to fast every other day while eating twice the normal amount of food on non-fasting days had better insulin control, neuronal resistance to injury and other health indicators than people fed calorie restricted diets. Fasting may yield psychological benefits as well.

A Guide for Community Health Workers ABE Development Services Trust, Marina Clarke, 2003. Community health workers (CHWs) play a vital role in the provision of health care services in South Africa and the need for the training and development of these CHWs is obvious and urgent. A major obstacle to the provision of such training is the low level of literacy among CHWs. It is for this reason that Juta Academic has teamed up with a number of key organisations and professionals involved in community health and adult education to develop the Health for All series. With over 150 illustrations these outcomes based training materials will develop the health care knowledge and skills of CHWs and bolster their literacy language and communication skills. The series can be used for health care training courses with each of the six books forming a separate module. The publications can also serve as reference books for use in the field.
