

Retail Merchandising Report

Christopher Collinge

1.0 Introduction

This report seeks to analyse the performance of the Ladies Wear department by examining key figures for the various ranges and investigate poor and high performance and give reasons as to what might have caused these fluctuations. Looking at last year's results it is possible to see that sales were flat and profit was up 10%; this demonstrates that internally the focus on propelling results for the bottom line has been advantageous. The Formalwear department is driving sales forward however stock levels for this category are low given the demand; Come the winter period an action plan will have been devised to ensure there is availability of a high performing category so that profit focus is maximized and sustainable. Through a clearly planned and thought proposition sales will be capitalized upon in the upcoming winter range and well into autumn 2017.

Despite a result of flat sales the margin has increased by 10% to a total profit of 54.5K which demonstrates that the targeting of the product ranges and excelled rates has paid off and is enabling the bottom line to be driven forward.
