Revenge Of Bigfoot:

Revenge of Bigfoot Leroy Blevins, 2015-02-15 A group of friends out on a camping trip get more than they bargained for when one of them kills an animal. Murders start to take place and it's up to Sheriff Randy to discover who the killer is before the body count keeps rising. Horror Gore Adult Content Adult language **Bigfoot's Revenge (The Bigfoot Chronicles 3)** Savage Tawny (author), 1901 *How to Kill Monsters Using Common Household Items* Jason Offutt, 2015-01-13 The human race is an endangered species. Vampires, werewolves, Bigfoot, and killer robots—they're all trying to kill us. Killer robots even have the word "killer" in their name. Can it get more obvious? We need to rid the world of these monsters before they rid the world of us. All of them. But these monsters aren't real, right? Wrong, and you're dead. These creatures wander the periphery of our reality, waiting for a moment of weakness and then attack while we're home alone in our underwear. *How to Kill Monsters Using Common Household Items* is a guidebook on how to rid your life of these monsters before they kill you, so sharpen that machete and gas up the weed whacker, folks. Each chapter contains: How to identify the monster, Who's going to help you kill it, Your arsenal and where to keep it (kitchen, bathroom, living room, garage, etc.), Behavior of the monster while you're trying to kill it, Disposing of the body, Monster powers, Monster weaknesses, How to avoid the monster. *How to Kill Monsters Using Common Household Items* is a must-have home defense guide for the do-it-yourself slayer. After using this book, you too can understand that setting gnomes on fire with a Bic lighter and a can of Aqua Net is funny. **Nightmare Movies** Kim Newman, 2011-04-18 Now over twenty years old, the original edition of *Nightmare Movies* has retained its place as a true classic of cult film criticism. In this new edition, Kim Newman brings his seminal work completely up to date, both reassessing his earlier evaluations and adding a second part that assesses the last two decades of horror films with all the wit, intelligence, and insight for which he is known. Since the publication of the first edition, horror has been on a gradual upswing and taken a new and stronger hold over the film industry. Newman negotiates his way through a vast back catalogue of horror, charting the on-screen progress of our collective fears and bogeymen from the low-budget slasher movies of the 60s through to the slick releases of the 2000s, in a critical appraisal that doubles up as a genealogical study of contemporary horror and its forebears. Newman invokes the figures that fuel the ongoing demand for horror: the serial killer, the vampire, the werewolf, the zombie, and draws on his remarkable knowledge of the genre to give us a comprehensive overview of the modern myths that have shaped the imagination of multiple generations of cinema goers. *Nightmare Movies* is an invaluable companion that not only provides a newly updated history of the darker side of film, but a truly entertaining guide with which to discover the less well-trodden paths of horror and re-discover the classics with a newly instructed eye. **Encyclopedia of Cryptozoology** Michael Newton, 2016-10-05 On every continent and in every nation, animals unrecognized by modern science are reported on a daily basis. People passionately pursue these creatures; the name given to their field of study is cryptozoology. Coined in the 1950s, the term literally means the science of hidden animals. When the International Society of Cryptozoology (ISC) was

formed in 1982 the founders declared that the branch of science is also concerned with the possible existence of known animals in areas where they are not supposed to occur either now or in the past as well as the unknown persistence of presumed extinct animals to the present time or to the recent past what makes an animal of interest to cryptology is that it is unexpected This reference work presents a flesh and blood view of cryptozoology Here 2 744 entries are listed the majority of which each describe one specific creature or type of creature Other entries cover 742 places where unnamed cryptids are said to appear profiles of 77 groups and 112 individuals who have contributed to the field descriptions of objects and events important to the subject and essays on cryptotourism and hoaxes for example Appendices offer a timeline of zoological discoveries annotated lists of movies and television series with cryptozoological themes a list of crypto fiction titles and a list of Internet websites devoted to cryptozoology

Lights! Camera! Arkansas! Robert Cochran, Suzanne McCray, 2015-02-02 Lights Camera Arkansas traces the roles played by Arkansans in the first century of Hollywood's film industry from the first cowboy star Broncho Billy Anderson to Mary Steenburgen Billy Bob Thornton and many others The Arkansas landscape also plays a starring role North Little Rock's cameo in *Gone with the Wind* Crittenden County as a setting for *Hallelujah* 1929 and various locations in the state's southeastern quadrant in 2012's *Mud* are all given fascinating exploration Robert Cochran and Suzanne McCray screened close to two hundred films from laughable box office bombs to laudable examples of filmmaking in their research for this book They've enhanced their spirited chronological narrative with an appendix on documentary films a ratings section and illustrations chosen by Jo Ellen Maack of the Old State House Museum where *Lights Camera Arkansas* debuted as an exhibit curated by the authors in 2013 The result is a book sure to entertain and inform those interested in Arkansas and the movies for years to come
