THE POWER OF STORY

ERIC SELBIN

Revolution Rebellion Resistance Book

Warren S. Goldstein, Jean-Pierre Reed

Revolution Rebellion Resistance Book:

Revolution, Rebellion, Resistance Eric Selbin, In this ground breaking book Eric Selbin argues that we need to look beyond the economic political and social structural conditions to the thoughts and feelings of the people who make revolutions In particular he argues we need to understand the stories people relay and rework of past injustices as they struggle in the present toward a better future Revolution, Rebellion, Resistance Professor Eric Selbin, 2013-04-04 Why do revolutions happen Decades of social science research have brought us little closer to understanding where when and amongst whom they occur In this groundbreaking book Eric Selbin argues that we need to look beyond the economic political and social structural conditions to the thoughts and feelings of the people who make revolutions In particular he argues we need to understand the stories people relay and rework of past injustices and struggles as they struggle in the present towards a better future Ranging from the French Revolution to the Battle for Seattle via Russia China Cuba Vietnam and Nicaragua Selbin makes the case that it is myth memory and mimesis which create maintain and extend such stories Revolution Rebellion Resistance identifies four kinds of enduring revolutionary story Civilizing and Democratizing The Social Revolution Freedom and Liberation and The Lost and Forgotten which do more than report on events they catalyse changing the world **Handbook of Revolutions in the 21st Century** Jack A. Goldstone, Leonid Grinin, Andrey

Korotayev, 2022-05-19 The 21st century has witnessed a considerable and increasing number of political revolutions around the world This contradicts the popular belief of many experts in the 1970s that revolutions occurred mainly in monarchies and empires Instead the revolutions of this century have several new characteristics which call for a renewed analysis of the subject This handbook offers a comparative perspective on the new wave of revolutions of the last decade Presenting case studies on the color revolutions the Arab revolutions of 2010 2011 and the global wave of revolutions in 2013 2018 that spanned regions ranging from Africa to the Caucasus it offers a better understanding of the varied forms features and historical backgrounds of revolutions as well as their causes Accordingly it highlights recent revolutions in their historical and world systems contexts The handbook is divided into seven parts the first of which examines the history of views on revolution and important aspects of the theory of revolution The second part analyzes revolutions within long term historical trends and in their world system contexts In turn the third part explores specific major revolutionary waves in history The fourth part analyzes the first revolutionary wave of the 21st century 2000 2009 the so called color revolutions while the fifth discusses the second wave the Arab Spring 2010 2013 as an important turning point The sixth part is dedicated to analyzing revolutions and revolutionary movements beyond the Arab Spring and some revolutionary events from the third wave that began in 2018 The seventh and final part offers forecasts on the future of revolutions Given its scope the book will appeal to scholars and students from various disciplines interested in historical trends sociopolitical change contentious politics social movements and revolutionary processes involving both nonviolent campaigns and political violence Once again this volume

demonstrates the kind of open minded systematic analysis that the field of revolutionary studies requires Prof George Lawson Department of International Relations Australian National University Canberra **Many Possible Worlds** Cameron Gordon, 2023-05-08 This book provides a crosscutting interdisciplinary account of how the disintegrated global subsistence economy circa 1800 has transformed into a global complex delivering unprecedented levels of material production and consumption Applying major findings from economics history historiography and sociology as well as from anthropology psychology politics and environmental studies the analysis tracks the ways in which changes in society including social structures values and forces have changed individuals including conceptions of race gender and identity and vice versa These changes have simultaneously homogenised and diversified societies and individuals in distinct but sometimes contradictory ways opening up many possible worlds from an individual and group perspective Yet the scale and pace of change has also led to increasing existential challenges The narrative consists of 30 chapters organized into 10 subsets of 3 one chapter on a relevant core idea one chapter focused on historical narrative and titled after a representative year and one chapter on a relevant associated crosscutting theme Major regional and topical discussions are provided with special attention paid to business and organisational change and developing world scholarship Small discussion boxes focusing on illustrative cases and details are presented throughout the book The last chapter contains overarching conclusions

Rethinking Latin American Social Movements Richard Stahler-Sholk, Harry E. Vanden, Marc Becker, 2014-11-25 This groundbreaking text explores the dramatic evolution in Latin American social movements over the past fifteen years Leading scholars examine a variety of cases that highlight significant shifts in the region First is the breakdown of the Washington Consensus and the global economic crisis since 2008 accompanied by the rise of new paradigms such as buen vivir living well Second are transformations in internal movement dynamics and strategies especially the growth of horizontalism horizontalidad which emphasizes non hierarchical relations within society rather than directly tackling state power Third are new dynamics of resistance and repression as movements interact with the pink tide rise of left of center governments in the region Exploring outcomes and future directions the contributors consider the variations between movements arising from immediate circumstances such as Oaxaca's 2006 uprising and Brazil's 2013 bus fare protests and longer lasting movements V a Campesina Brazil's MST and Mexico's Zapatistas Assessing both the continuities in social movement dynamics and important new tendencies this book will be essential reading for all students of Latin American politics and society Contributions by Marc Becker George Ciccariello Maher Kwame Dixon Fran Espinoza Daniela Issa Nathalie Lebon Maurice Rafael Maga a Mar a Elena Martinez Torres Sara C Motta Leonidas Oikonomakis Suyapa Portillo Villeda Peter M Rosset Marina Sitrin Rose J Spalding Richard Stahler Sholk Alicia Swords Harry E Vanden and Ra l Zibechi *Religion in Rebellions, Revolutions, and Social Movements* Warren S. Goldstein, Jean-Pierre Reed, 2022-05-19 Religion in Rebellions Revolutions and Social Movements demonstrates that while religion is often a social force that maintains if not legitimates the sociopolitical order it

is also a decisive factor in economic social and political conflict The book explores how and under what conditions religion functions as a progressive and or reactionary force that compels people to challenge or protect social orders The authors focus on the role that religion has played in peasant slave and plebeian rebellions revolutions including the Chinese English French Russian and Iranian and modern social movements In addition to these case studies the book also contains theoretical chapters that explore the relationship religious thought has with the politics of liberation and oppression It examines the institutional organizational ritualistic discursive ideological and or framing mechanisms that give religion its oppressive and liberating structures Many scholars of religion continue very conventional modes of thinking ignoring how religion has been and continues to be both a hegemonic and counterhegemonic force in conflict This book looks at both sides of the equation This international and interdisciplinary volume will be of interest to students and scholars in the fields of politics of religion sociology of religion religious studies gender studies and history

From Rebel to Ruler Tony Saich, 2021-07-06 On the centennial of the founding of the Chinese Communist Party the definitive history of how Mao and his successors overcame incredible odds to gain and keep power Mao Zedong and the twelve other young men who founded the Chinese Communist Party in 1921 could hardly have imagined that less than thirty years later they would be rulers On its hundredth anniversary the party remains in command leading a nation primed for global dominance Tony Saich tells the authoritative comprehensive story of the Chinese Communist Party its rise to power against incredible odds its struggle to consolidate rule and overcome self inflicted disasters and its thriving amid other Communist parties collapse Saich argues that the brutal Japanese invasion in the 1930s actually helped the party As the Communists retreated into the countryside they established themselves as the populist grassroots alternative to the Nationalists gaining the support they would need to triumph in the civil war Once in power however the Communists faced the difficult task of learning how to rule Saich examines the devastating economic consequences of Mao s Great Leap Forward and the political chaos of the Cultural Revolution as well as the party s rebound under Deng Xiaoping s reforms Leninist systems are thought to be rigid yet the Chinese Communist Party has proved adaptable *From Rebel to Ruler* shows that the party owes its endurance to its flexibility But is it nimble enough to realize Xi Jinping s China Dream Challenges are multiplying as the growing middle class makes new demands on the state and the ideological retreat from communism draws the party further from its revolutionary roots The legacy of the party may be secure but its future is anything but guaranteed

Strategic Narratives Alister Miskimmon, Ben O'Loughlin, Laura Roselle, 2014-02-18 Communication is central to how we understand international affairs Political leaders diplomats and citizens recognize that communication shapes global politics This has only been amplified in a new media environment characterized by Internet access to information social media and the transformation of who can communicate and how Soft power public diplomacy 2 0 network power scholars and policymakers are concerned with understanding what is happening This book is the first to develop a systematic framework to understand how political actors seek to shape order

through narrative projection in this new environment To explain the changing world order the rise of the BRICS the dilemmas of climate change poverty and terrorism the intractability of conflict the authors explore how actors form and project narratives and how third parties interpret and interact with these narratives The concept of strategic narrative draws together the most salient of international relations concepts including the links between power and ideas international and domestic and state and non state actors The book is anchored around four themes order actors uncertainty and contestation Through these Strategic Narratives shows both the possibilities and the limits of communication and power and makes an important contribution to theorizing and studying empirically contemporary international relations International Studies Association International Communication Best Book Award

Crises of Imagination, Crises of Power Max Haiven, 2014-03-13 Today when it seems like everything has been privatized when austerity is too often seen as an economic or political problem that can be solved through better policy and when the idea of moral values has been commandeered by the right how can we re imagine the forces used as weapons against community solidarity ecology and life itself In this stirring call to arms Max Haiven argues that capitalism has colonized how we all imagine and express what is valuable Looking at the decline of the public sphere the corporatization of education the privatization of creativity and the power of finance capital in opposition to the power of the imagination and the growth of contemporary social movements Haiven provides a powerful argument for creating an anti capitalist commons Capitalism is not in crisis it is the crisis and moving beyond it is the only key to survival Crucial reading for all those questioning the imposition of austerity and hoping for a fairer future beyond it *Politics of Hybrid Warfare* Jakub Eberle, Jan Daniel, 2023-06-23 This is a first book long analysis showing how the notion of hybrid warfare was used to transform security policies and discourses in an EU NATO country

Building on current debates in International Political Sociology Critical Security Studies and Critical Geopolitics it provides a novel account of how crisis geopolitics uncertainty and expertise are intertwined in the social construction of threats Based on extensive and original empirical research of large textual archive and elite interviews in the Czech Republic and Brussels the book shows how officials bureaucrats journalists activists and experts all participate in the reshaping of security in a new geopolitical environment Zooming on the case of Czechia and its specific Central European context it complements the predominantly Western centric studies of insecurity with an account of how the liminal position on an East West boundary influences security politics As a first study of its kind and scope it will be of interest to academics and students interested in Central European politics practices and discourses of hybrid warfare as well as critical approaches to security and geopolitics

The Oxford Handbook of Social Movements Donatella della Porta, Mario Diani, 2015-10-29 The Oxford Handbook of Social Movements is an innovative volume that presents a comprehensive exploration of social movement studies mapping the field and expanding it to examine the recent developments in cognate areas of studies within and beyond sociology and political science This volume brings together the most distinguished social and political scientists working in this field each

writing thought provoking essays in their area of expertise and facilitates conversations between classic social movement agenda and lines of research The Oxford Handbook of Social Movements discusses core theoretical perspectives recent contributions from the field and how patterns of macro social change may affect social movements as well as suggesting what contributions social movement studies can give to other research areas in various disciplines **Narrative Research** Molly Andrews, Mark Davis, Cigdem Esin, Barbara Harrison, Lars-Christer Hydén, Margareta Hydén, Aura Lounasmaa, Corinne Squire, 2025-01-23 First published Open Access under a Creative Commons license as What is Narrative Research this title is now also available as part of the Bloomsbury Research Methods series Narrative research has become a catchword in the social sciences today promising new fields of inquiry and creative solutions to persistent problems This book brings together ideas about narrative from a variety of contexts across the social sciences and synthesizes understandings of the field Rather than focusing on theory it examines how narrative research is conducted and applied It operates as a practical introductory guide basic enough for first time researchers but also as a window onto the more complex questions and difficulties that all researchers in this area face The authors guide readers through current debates about how to obtain and analyse narrative data about the nature of narrative the place of the researcher the limits of researcher interpretations and the significance of narrative work in applied and in broader political contexts This new edition includes updated references and a greater focus on digitality throughout It addresses social justice and decoloniality more explicitly centrally and consistently drawing on examples around Black Lives Matter MeToo climate change and Extinction Rebellion and Covid and pandemic narratives

The Oxford Handbook of History and International Relations Mlada Bukovansky, Edward Keene, Christian Reus-Smit, Maja Spanu, 2023 In this Handbook historians and scholars of international relations examine the past and present of the intersection between History and IR as well as looking to the future by laying out new questions and directions for research The volume s four parts present a diverse array of methodological philosophical and historical insights **Radical Communications** Michael Tsangaris, 2021-11-08 Radical Communications explores unauthorized messages we see in the cities we live in and their impact on the construction of social reality Michael Tsangaris treats the city as a text and examines the political slogans graffiti and street art of Athens as complex visual signs in an alternative communication system He argues that the legitimacy aesthetic value and social acceptability of these expressions depend on the time place and social group or individual that interprets them Finally his analysis reveals the contradictory character of the contemporary city It shows a city of social inequalities cultural diversity multinational encounters of conflicts between age groups and political economic and epidemic crises a city of one dimensional thinking apathy and consumer fetishism but also a city that aspires to the dream of a better society and holds utopian promise **Narrative Power** Ken Plummer, 2019-05-29 Narratives are the wealth of nations they animate life sustain culture and cultivate humanity They regulate and empower us bringing both joy and discontent And they are always embedded in ubiquitous power stories shape power and power shapes story In this

provocative and original study Ken Plummer takes us on a journey to explore some of the key dimensions of this narrative power His main focus is on what he calls narratives of suffering and how these change through transformative narrative actions across an array of media forms The modern world is in crisis and long standing narratives are being challenged in five major directions through deep inequalities global state complexities digital risks the perpetual puzzle of truth and the ever emerging contingencies of time Asking how we can build sustainable stories for a better future the book advocates the cultivation of a narrative hope a narrative wisdom and a politics of narrative humanity Narrative Power suggests novel directions for enquiry discusses a raft of innovative ideas and concepts and sets a striking new agenda for research and action

Men, Power and Liberation Amit Thakkar,Chris Harris,2018-12-07 Each contribution to this book discusses key issues arising from the portrayal of men and the formation of masculine identities in a range of representative and landmark texts fictional and non fictional drawn from different historical periods and from various countries in the Hispanophone Americas There is an emphasis on the ways in which writers from Argentina Manuel Puig Chile the Spaniard Alonso de Ercilla y Z i ga and the Chilean Nicol s Palacios Mexico Gustavo Sainz and ngeles Mastretta and the Hispanic USA Jennifer Harbury and Francisco Goldman have explored the themes of love friendship and trust and their transformative power for gender relations in situations and contexts where deception exploitation and oppression are often disturbingly present There is also a discussion of the applications insights and limitations of different theoretical frameworks and concepts relevant to the task of producing gendered readings including Connell s world gender order and hegemonic masculinity as well as the cult of virility as characterised by Still and Worton Chela Sandoval s decolonial love and methodology of the oppressed and Beasley Murray s posthegemony This book was originally published as a special issue of Iberian and Latin American Studies

Memory, Trauma and Narratives of the Self Edmundo Balsemão Pires,Cláudio A.S. Carvalho,Joana Ricarte,2024-08-06 This insightful book explores the impact of traumatic experiences on the constitution of narrative identity Editors Edmundo Balsem o Pires Cl udio Alexandre S Carvalho and Joana Ricarte bring together multidisciplinary experts to examine the epistemic and ethical political value of narrative memory demonstrating its significance in forming essential aspects of the self and collective identity

Rebel Governance in Civil War Ana Arjona,Nelson Kasfir,Zachariah Mampilly,2015-10-22 This is the first book to examine and compare how rebels govern civilians during civil wars in Latin America Africa Asia and Europe Drawing from a variety of disciplinary traditions including political science sociology and anthropology the book provides in depth case studies of specific conflicts as well as comparative studies of multiple conflicts Among other themes the book examines why and how some rebels establish both structures and practices of rule the role of ideology cultural and material factors affecting rebel governance strategies the impact of governance on the rebel civilian relationship civilian responses to rebel rule the comparison between modes of state and non state governance to rebel attempts to establish political order the political economy of rebel governance and the decline and demise of rebel

governance attempts *Social Representations, Health and Illness* Michael Murray, 2025-09-30 This book provides a concise introduction to the theoretical and methodological issues around the social representation of health and illness across the lifespan Moving from the traditional conception of health and illness as clinical entities to a more wide ranging definition it considers the value of social representation theory in offering innovative insights into the popular understanding of health and illness and the interplay between individual experiences and broader socio cultural contexts Through a combination of historical analysis and contemporary studies the book sheds new light on how people understand and engage with health related practices It begins by considering the origins of social representation theory It then proceeds to consider the influence of socio economic factors gender roles and cultural processes on social representations of health and illness and delves into questions such as How do children adults and older people s understandings of health and illness change over time What role do social class and gender play in shaping these understandings How do young people negotiate their health identities in the face of societal expectations and personal experiences It concludes by considering processes of change in social representations Integrating perspectives from health psychology social psychology and social representation theory and research this short volume offers valuable insights for academics interested in the intersections of health identity and society as well as practitioners working in health promotion and education **The Internet and Democracy in Global**

Perspective Bernard Grofman, Alexander H. Trechsel, Mark Franklin, 2014-07-08 This volume provides an important update to our current understanding of politics and the internet in a variety of new contexts both geographically and institutionally The subject of e democracy has morphed over the years from speculative and optimistic accounts of a future heightened direct citizen involvement in political decision making and an increasingly withered state apparatus to more prosaic investigations of party and governmental website content and micro level analyses of voters online activities Rather than levelling the communications and participation playing field most studies concluded that existing patterns of bias and power distribution were being repeated online with the one exception of a genuine change in the potential for protest and e activism Across all of these accounts the question remains whether the internet is a levelling communication tool that elevates the profile of marginalised players in the political system or whether it is a medium that simply reinforces existing power and participatory biases While employing case studies from various global perspectives this book investigates the role of digital media and competitive advantage campaigns and the effect of social media online communication as way of fomenting nonviolent revolutions and the undeniable and important role of the internet on democracy around the world
