

Rhino Poaching in Namibia

of reported rhino poaching deaths in Namibia

Data from 2006 to 2020 are from SACI's African Rhino Specialist Group. 2021 and 2022 numbers are from Namibia's Ministry of Environment, Forestry and Tourism as of January 2023.

Rhino Poaching Grade 11 Memorandum

**Tom Milliken, Kristin Nowell, Jorgen B.
Thomsen**

Rhino Poaching Grade 11 Memorandum:

Transdex Index, 1994 An index to translations issued by the United States Joint Publications Research Service JPRS
Operation Lock and the War on Rhino Poaching John Hanks, 2015 The definitive account of a daring and controversial covert operation to stop the aggressive illegal trade in rhino horn in the 1980s *Rhino Poaching* Janina Naef, 2016 Rhino horn is very popular in Asia as it is a status symbol and used as medicine That is one reason why the number of these animals is decreasing continuously In 2007 13 rhinos were poached in South Africa while in 2015 the number increased to 1175 rhinos This Matura Paper deals with problems of rhino poaching in South Africa It poses into the question if it is still possible to see rhinos in the future and examines what should be done to save this species from extinction Therefore 5 theses has been stated which consist of political financial protection measures and enlightenment of local and Asian people Thereby an interview has been conducted with a conservationist in addition to research in a volunteering project in South Africa regarding these theses The results prove the problems already stated If there are no changes in one of these problems the rhino doubtfully has a future Conservation of Rhinos and Reauthorization of the Sikes Act United States. Congress. House. Committee on Merchant Marine and Fisheries. Subcommittee on Environment and Natural Resources, 1994

Development of a Rhino Anti-poaching Model for Game Farms and Nature Reserves in the Free State Province of South Africa H.L. Jordaan, 2018 During the last ten years the rhino populations of South Africa have suffered under an intense poaching onslaught This onslaught has moved to the Free State Province of South Africa and there is a justified concern that its rhino populations are at risk To protect the rhinos in the Province a need exists to manage the risk of poaching through a practical rhino anti poaching model which can assist to protect them effectively This Rhino Anti Poaching Model can determine and predict a poaching risk can identify weaknesses can assist to address problem areas and will enable efficient monitoring It is imperative to know which rhino species occurred in the Free State Province in historical times to ensure that the correct rhino species is protected against the risk of poaching and that they be kept in a suitable habitat Nine farms in the Free Sate have rhino as a prefix in their names which may be an indication that rhino did occur in the Province Various historical photos and literature give a retrospective view and show that there was insufficient browsing vegetation for black rhinos to survive The occurrence of open grassland however suggests that white rhinos did occur in those specific areas during the time of the first pioneers During this study period a count of rhinos was done and currently there are 669 white rhinos and 11 black rhinos in the Province thus a total of 680 rhinos in the Free State Province The South African Constitution mandated the State to enforce measures that will ensure adequate environmental protection for the benefit of future generations The South African government promulgated a myriad of new environmental legislation Several international agreements were also introduced as enforcement tools to regulate rhinos The enforcement measures are noble but out of balance with many inspectors but too few law enforcement officials It also over regulates and ensnare officials in

minor issues A brief discussion on the latest technological innovations gives insight to the purpose of its development and effectiveness in combating rhino poaching There are currently no technical or strategic solutions to save rhinos from poaching therefore a combination of techniques is needed Although self manufactured unconventional devices seem to be more efficient to deceive poachers a combination with the latest technological equipment and conventional strategies might be the best solution to counter rhino poaching Free State rhino farmers own 90% of the Province s rhinos However these rhino farmers lack the appropriate security measures required to adequately protect their rhinos A questionnaire was developed and data were collected providing statistics on the current stance of security measures on rhino sites in the Province It showed that 80% of rhino poaching occurs in rhino camps bordering public roads 69% of the rhino sites located within 20km from the nearest town reported poaching and 77% of large rhino camps are prone to poaching incidents 57% of the respondents experienced rhino poaching on their sites Through the questionnaire it was gathered that rhino farmers in the Province are not vested in the concept of using trained rhino security A Production Loss Formula was constructed that calculates the production loss of a poached rhino

Africa's Threatened Rhinos Keith Somerville, 2025-01-14 Africa s surviving rhinos are under serious threat Poaching for their horns massive extermination by sports hunters in the nineteenth and first half of the twentieth century and progressive habitat loss have all driven black and white rhino close to the edge This book considers human interactions with these magnificent and enigmatic animals charting hunting for food and hides and then hunting for horn to meet external demand for this much coveted commodity as well as peaceful coexistence over the course of three millennia With only two females alive in a closely protected reserve in Kenya the Northern White Rhino is on the brink of extinction The Southern White Rhino was increasing in numbers but poaching in South Africa Botswana and Namibia has now reduced the population to fewer than 20 000 while Black Rhino are hovering around the 6 000 6 500 mark also with the danger of extirpation everywhere but in parts of eastern and southern Africa Many books have been written on poaching and the decline of the rhino often from a very personal engaged viewpoint This volume takes the reader into important new territory showing how human agency has led to the situation we now face Covering the history of commercial and sporting exploitation of rhino it brings the picture up to date with an overview of contemporary conservation and anti poaching operations This urgent work is a significant contribution to our understanding of wildlife on the African continent

The Economics of Rhino Poaching Michael Dawes, 2019 Ivory, Horn and Blood Ronald Orenstein, 2013-07-25 Meticulous research chilling facts an important and much needed book Dr Jane Goodall DBE Founder The Jane Goodall Institute If it is understanding you seek turn these pages Virginia McKenna OBE Founder The Born Free Foundation If you care about elephants and rhinos and the poaching onslaught that threatens their extinction in the wild this is the book for you Ian Redmond OBE Ambassador UN Great Apes Survival Program As recently as ten years ago out of every ten African elephants that died four fell at the hands of poachers The figure today is eight Over sixty percent of Africa s Forest Elephants

have been killed by poachers since the turn of the century Rhinoceroses are being slaughtered throughout their ranges The Vietnamese One horned Rhinoceros and the Western Black rhino have become extinct in the last decade and the Northern White Rhinoceros the largest of them all barely survives in captivity This alarming book tells a crime story that takes place thousands of miles away in countries that few of us may visit But like the trade in illegal drugs the traffic in elephant ivory and rhinoceros horn has far reaching implications not only for these endangered animals but also for the human victims of a world wide surge in organized crime corruption and violence Since the worldwide ban on commercial ivory trade was passed in 1989 after a decade that saw half of Africa's elephants slaughtered by poachers Ronald Orenstein has been at the heart of the fight Today a new ivory crisis has arisen fuelled by internal wars in Africa and a growing market in the Far East Seizures of smuggled ivory have shot up in the past few years Bands of militia have crossed from one side of Africa to the other slaughtering elephants with automatic weapons A market surge in Vietnam and elsewhere has led to a growing criminal onslaught against the world's rhinoceroses The situation for both elephants and rhinos is dire **Four Years for the Rhino** Kamalajanga Kumvara,2012 Guidelines for the in Situ Re-introduction and Translocation of African and Asian Rhinoceros Richard Emslie,Richard Kock,2009 Transnational Links in Rhino Poaching and the Black-Market Price of Rhino Horns Adrian Lopes,2019 Rhino poaching in South Africa and India's major range states have been remarkably similar over time Organised criminal syndicates manage an illegal supply chain of rhino horns from poachers middlemen and corrupt authorities to East Asian black markets In this paper we use rhino poaching data from South Africa and India to examine the plausibility of transnational links and coordination in their supplies of rhino horns We develop an innovative model of oligopolistic collusion in supply and find empirical evidence to support the theory while controlling for rhino horn demand features corruption governance quality and conservation policy Furthermore we propose an inventory management model of a criminal syndicate that controls the horn supply chain The method retraces and forecasts black market prices and has potential applicability in estimating supply or demand elasticities This paper is the first to suggest an oligopolistic feature of the poaching industry It highlights the need to reorient conservation policy to account for possible coordination of rhino horn supplies between range states **Conservation of Species and the Endangered Rhinoceros** United States. Congress. House. Committee on Science and Technology. Subcommittee on Natural Resources, Agriculture Research, and Environment,1987 African Rhino Richard Emslie,1999 The black and the white rhinoceros have become flagship species for international conservation They are significant not only for the continuation of a major evolutionary heritage but also as symbols for the protection of African savannahs The battle for the survival of these species has been marked by some notable successes and sadly many failures and the situation is still critical The international horn trade ban and the domestic bans imposed in most traditional user states have driven the trade further underground in some cases inflating prices and making illegal dealing even more lucrative This Plan is aimed at donors government and non government organizations and all those

involved in rhino conservation It outlines the actions and strategies needed to catalyse support for these majestic animals and help secure their future in sub Saharan Africa The overall conclusion is that given the political will stability and adequate field expenditure rhinos can be conserved in the wild

An Analysis of Enforcement of Laws on Rhino Poaching in South Africa Malesela Samuel Mogoshi, 2016

The Decline of the Black Rhino in Zimbabwe Tom Milliken, Kristin Nowell, Jorgen B. Thomsen, 1993 An evaluation of Zimbabwe's Black Rhino conservation strategy in the face of continuous poaching and illegal trade in rhino horn and an assessment of future options for rhino conservation

Death and Destruction Richard Wayne Charlton, 2017 The poaching of wildlife has been a concern to many involved in the protection of wildlife Poaching is found throughout the world and has been around for thousands of years In the past century poaching has reached new heights and the concern of an extinction of a species has brought the topic of poaching to new light Whilst poaching has been seen as a biological or conservation topic in the past criminologists around the world have now started to delve into the topic The poaching of wildlife and more so in recent years rhino poaching has been a concern in South Africa South Africa has seen an increase in rhino poaching in the past 8 years where over 4 000 rhinos have been slaughtered This research aims to give insight into the current rhino poaching epidemic in South Africa and looks at the problem from a criminological point of view where possible solutions can be recommend using criminological theories for the prevention of rhino poaching

Economic Incentives and Poaching of the One-Horned Indian Rhinoceros in Nepal Mahesh Poudyal, 2005 Despite a relatively successful conservation programme for the endangered one horned rhinoceros in the National Parks of the Terai region poaching remains one of the major threats to its survival in Nepal In recent years there has been an alarming rise in the number of rhinos poached over 100 rhinos were taken in and around the Royal Chitwan National Park RCNP between 1998 and 2003 Although rhino poaching levels are influenced by the price of rhino horn on the international black market amongst a host of other socio economic factors there have not been any attempts to study the reasons behind poaching in Nepal using econometric models developed and applied elsewhere This study uses econometric models to explain changes in the level of poaching in the RCNP over a 30 year period Factors that are thought to influence the number of rhinos poached in the RCNP include i rhino population ii effectiveness of anti poaching measures iii penalties for poaching iv availability of alternative economic opportunities i e opportunity costs of poaching and v the price of rhino horn The results indicate that anti poaching units APUs in their original organisational and operational form were highly successful in controlling the level of poaching in the RCNP Furthermore the availability of local economic opportunities seemed to reduce the level of poaching significantly However the penalties imposed on the convicted poachers were found to have little or no effect on the level of rhino poaching in the RCNP The results also indicate a sharp rise in the number of rhinos poached during the years of the Maoist insurgency in the country compared to the years before Although the analysis is still very simplistic it provides valuable insights into the factors that have affected the level of poaching in the RCNP over the years It

is hoped that these insights will be helpful in formulating effective policies to tackle rhino poaching especially in and around the RCNP where Nepal's largest population of one horned rhinoceros is found

Rhino Poaching Grade 11 Memorandum Introduction

In the digital age, access to information has become easier than ever before. The ability to download Rhino Poaching Grade 11 Memorandum has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Rhino Poaching Grade 11 Memorandum has opened up a world of possibilities. Downloading Rhino Poaching Grade 11 Memorandum provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Rhino Poaching Grade 11 Memorandum has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Rhino Poaching Grade 11 Memorandum. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Rhino Poaching Grade 11 Memorandum. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Rhino Poaching Grade 11 Memorandum, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Rhino Poaching Grade 11 Memorandum has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the

most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Rhino Poaching Grade 11 Memorandum Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Rhino Poaching Grade 11 Memorandum is one of the best book in our library for free trial. We provide copy of Rhino Poaching Grade 11 Memorandum in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Rhino Poaching Grade 11 Memorandum. Where to download Rhino Poaching Grade 11 Memorandum online for free? Are you looking for Rhino Poaching Grade 11 Memorandum PDF? This is definitely going to save you time and cash in something you should think about.
