2 1 Text Summarization Text summarization is the process of distilling the most important information from a source or sources to produce an abridged version for a particular user or users and task or tasks

3 Basic and classical articles in text summarization appear in Advances in automatic text summarization

3 A literature survey on information extraction and text summarization is given by Zechner

7 In general the process of automatic text summarization is divided into three stages

1 analysis of the given text

2 summarization of the text

3 presentation of the summary in a suitable output form

Titles abstracts and keywords are the most common summaries in Academic papers

Usually the title the abstract and the keywords are the first second and third parts of an Academic paper respectively

The title usually describes the main issue discussed in the study and the abstract presents the reader a short description of the background the study and its results

A keyword is either a single word unigram e g learning or a collocation which means a group of two or more words representing an important concept e g machine learning natural language processing

Retrieving collocations from text was examined by Smadja

5 and automatic extraction of collocations was examined by Kita et al
