e-Science Partner: A Complete Guide To Lower Block Science 3/4 Angeline Tan, 2012-03-06 Apart from the textbooks that students use in school, Science Partner: A Complete Guide to Lower Block Science plays a significant role as a resource book for them. Topics under each theme: Diversity, Systems, Cycles, Energy, and Interactions are covered in detail based on the latest primary science syllabus for primary 3 and 4. The language used in this book is simple and easy to understand so that students can easily and effectively learn and understand the concepts of science. A variety of examples

and illustrations are found within each topic to generate the interest of the students. In addition, four different types of pictorial icons are used in the book. They point out to students to pay attention to the important information that is given. Example provides examples and explanations. Alert brings to students' attention a concept, term, or information that they need to fully and consciously understand. This has been added because it is found that many students have a common misconception of an idea, term, or concept in science and it should be rectified. Extra indicates that more information on the topic is given so that students can increase their knowledge of the subject matter. Experiment indicates to students the relevant experiments that need to be conducted so as to build knowledge and understanding of a concept. Important points are listed out at the end of each topic under a titled box 'What I Have Learnt In This Chapter' for quick and easy reference before the examinations. Students will find that this resource book helps make studying science an enjoyable journey for them. It is hoped that through this book, a student's learning of science concepts is further enhanced and his interest level in science is increased.
