Vigier, 2013-06-29 The Symposium entitled Causality and Locality in Modern Physics and Astronomy Open Questions and
Possible Solutions was held at York University Toronto during the last week of August 1997 It was a sequel to a similar sym
posium entitled The Present Status of the Quantum Theory of Light held at the same venue in August 1995 These symposia
came about as a result of discussions between Professor Stanley Jeffers and colleagues on the International Organizing
Committee Professor Jeffers was the executive local organizer of the symposia The 1997 symposium attracted over 120
participants representing 26 different countries and academic institutions The broad theme of both symposia was the enigma
of modern physics the non local and possibly superluminal interactions implied by quantum mechanics the structure of
fundamental particles including the photon the reconciliation of quantum mechanics with the theory of relativity and the
nature of gravity and inertia Jean Pierre Vigier was the guest of honour at both symposia He was a lively contributor to the
discussions of the presentations The presentations were made as 30 minute lectures or during an evening poster session
Some participants did not submit a written account of their presentation at the symposium and not all of the articles
submitted for the Proceedings could be included because of the publisher's page limit The titles and authors of the papers
that had to be excluded are listed in an appendix
