School S Out Gay And Lesbian Teachers In The Classroom:

School's Out Cati Connell, 2014-11-24 How do gay and lesbian teachers negotiate their professional and sexual identities at work given that these identities are constructed as mutually exclusive even as mutually opposed Using interviews and other ethnographic materials from Texas and California School s Out explores how teachers struggle to create a classroom persona that balances who they are and what s expected of them in a climate of pervasive homophobia Catherine Connell s examination of the tension between the rhetoric of gay pride and the professional ethic of discretion insightfully connects and considers complicating factors from local law and politics to gender privilege She also describes how racialized discourses of homophobia thwart challenges to sexual injustices in schools Written with ethnographic verve School s Out is essential reading for specialists and students of queer studies gender studies and educational politics LGBT-Q Teachers, Civil Partnership and Same-Sex Marriage Aoife Neary, 2016-12-01 The introduction of legislative structures for same sex relationships provides a new lens for grappling with the politics of sexuality in schools and society The emergence of civil partnership and same sex marriage in Ireland brings to the fore international debates around public intimacy religion in the public sphere secularism and the politics of sexuality equality Building on queer feminist and affect theory in innovative ways this book offers insight into the everyday negotiations of LGBT Q teachers as they operate between and across the intersecting fields of education religion and LGBT Q politics Neary illustrates the complexity of negotiating personal and professional identities for LGBT Q teachers **Coming Out of the Classroom Closet** Karen Marie Harbeck, 1992 This text encourages educators to become visible positive influences and role models for gay and lesbian students in their classrooms and schools It presents recent research to help gay and lesbian **Understanding Homosexuality, Changing Schools** Arthur Lipkin, 2018-02-12 BRINGING TOGETHER thirteen topics related to homosexuality and education Understanding Homosexuality Changing Schools provides a foundation in gay lesbian studies and offers models for equity inclusion and school reform It is designed to help educators policymakers and the public understand the significance of gay and lesbian issues in education aid communication between gay lesbian students and their families and schools facilitate the integration of gay and lesbian families into the school community and promote the inclusion of gay and lesbian curricula in a range of disciplines It also seeks to promote the healthy development of all students through reducing bigotry self hatred and violence This volume makes the gay lesbian bisexual and transgender experience part of a democratic multicultural vision Lesbian Teachers Madiha Didi Khayatt, 1992-01-01 Teachers in general are hired to conform with set values of the community which hires them They are expected to reflect conventions which correspond with an ideological model of behavior sanctioned by the state and by the community in which they work In a publicly funded educational system not only are teachers expected to transmit dominant ideologies but as representatives of the state they are assumed to embody the dominant values of the society which hires them The notion of lesbian teachers inevitably contradicts mainstream assumptions about female

teachers women whose image stereotypically corresponds with and implicitly conveys traditional female virtues of purity dedication and nurturance Using an analysis that combines feminist concepts of patriarchy with Gramsci's notion of hegemony this book is an institutional ethnography which begins from the standpoint of lesbian teachers but at the same time locates their experiences in the immediate social organization from which they arise and which gives them meaning Through intensive interviews with nineteen lesbian teachers Khayatt explores these women's lives as they themselves describe them How do they conceal their sexuality How do lesbian teachers cope in the classroom How do they deal with their perceived need to live a double life To whom do they come out Why do they feel unsafe to be out despite the potential protection of legal rights And finally what would they stand to lose if found out
