

Science Fair Student - Parent Letter

Dear Students and Parents:

It's time to start work on our school's Science Fair. All students have been given a packet with a schedule outlining due dates and important information regarding the student's project. Ample time has been scheduled and work has been spread out, so students can complete the work at a comfortable pace. They will need to work on it at home and will be given some class time too.

This is a major project and will represent a portion their grade for the next grading period(s). The primary objective of this project is to have students approach a problem scientifically and integrating assorted subjects. This includes:

1. Asking questions and forming hypotheses
2. Creating experiments to test those hypotheses
3. Organizing data and drawing conclusions
4. Writing about scientific research and creating bibliographies

The project must be **experimental** in nature as opposed to research or demonstration oriented. In other words, students must do a test, survey, or experiment to determine the answer to their question instead of just looking it up in a book. We encourage students to pick topics that they are genuinely interested in, since they will be working on these projects for the next several months. Topics must also be "original" - something students do not already know. It is also encouraged that testing not be done on animals except under the direct supervision of a veterinarian. Please see me if you have questions.

In order to do well on these individual tasks listed in the science fair booklet and listed on the due date sheet, the student must be engaged in the project from the beginning and not wait until the last minute. Please note these due dates on the schedule.

Project guidelines state that all work must be done by the students; however, assistance may be provided by teachers, parents, etc. It is very difficult to work alone without the exchange of ideas, so we encourage you to brainstorm with your child on different ideas and possible topics your child may want to pursue. I do ask that you allow your student to attempt and do the majority of the work. It will not benefit your child and make it more difficult for the student to explain if others and not the student do the investigation. Students have been given lists of Science Fair Categories and Guidelines and Project Ideas.
