documentation of how it was made Through legal analysis historical parallels and contemporary case studies this book exposes how transparency mandates create unnecessary barriers restricting creative autonomy and imposing impractical bureaucratic oversight on the production of knowledge and culture Essential reading for scholars policymakers and professionals in media law and technology this work presents a forceful argument against institutional overreach advocating for a future in which creators retain full control over their methods It is both a scholarly intervention and a polemic making the case that the right to opaque creation is fundamental to intellectual and artistic freedom in the AI age **Newsletter**,1998 **Applied Mechanics Reviews** ,2000 **Neural Information Processing** Haiqin Yang,Kitsuchart Pasupa,Andrew Chi-Sing Leung,James T.
