Gordon,2017-12-06 Gathering researchers from or towards Global South epistemologies this book enriches the debate on crucial questions for liberation in the South and the improvement of South relations It argues that coloniality

and colonialism are not outdated phenomena of the historical past but contemporary marks that remain repressed. The dominance of Eurocentric paradigm in the social sciences explains the long lasting detachment between thinkers and politicians from the Global South which have been historically presented according to their respective relations with the West. Europe and North America. The dialogue on common problems and challenges to people and societies in the South largely derived from their colonial past and condition is still sparing. This book actively promotes and demonstrates the value of intercultural dialogue and debate amongst voices from within the Global South on issues to do with decoloniality, cultural rights, law and politics.

Impeachment in the Nigerian Presidential System Omololu Fagbadebo, 2020-08-26. This book explores the politics associated with the exercise of the legislative power of impeachment as intended by the drafters of the Constitution in Nigeria. It interrogates the exercise of the power of impeachment with reference to the intended purpose and examines its failures in the cases of impeachment in the country. It analyzes the interplay of power in the governing institutions in Nigeria's political system which involved the understanding of a web of interactions among elites within a political structure relating with others outside its sphere of operation. It presents an analysis of the politics associated with impeachment within the framework of the activities of different political actors operating in different political structures assigned to perform certain statutory roles in the political system. The book shows how the selective use of impeachment provisions as instrument of political vendetta and harassment has weakened the potency of this oversight power of the legislature thereby engendering accountability problem in the Nigerian presidential system.
