

Abstract. We study the asymptotic behavior of the eigenvalues of the Dirac operator on a Riemannian manifold with a boundary. The Dirac operator is assumed to be self-adjoint and the boundary is assumed to be of codimension one. The asymptotic behavior of the eigenvalues is studied in terms of the geometry of the manifold and the boundary. The results are applied to the study of the asymptotic behavior of the eigenvalues of the Dirac operator on a Riemannian manifold with a boundary. The results are applied to the study of the asymptotic behavior of the eigenvalues of the Dirac operator on a Riemannian manifold with a boundary.
