

À votre bonne attention

Le présent Manuel d'atelier fournit au professionnel tous les conseils spécifiques à respecter pour la réparation de nos tracteurs. Nous présumons que son atelier est doté de l'équipement général et de l'outillage standard. Nous avons réduit le nombre des outils spécifiques au strict indispensable; chaque fois que leur utilisation sera requise, le lecteur les trouvera reproduits avec leur numéro sur la figure correspondante, à l'endroit de son affichage ainsi que dans un chapitre à part du manuel.

Les Manuels d'atelier ne sont pas suivis par un service de mise à jour et bien que nous vous priions de vous en tenir aux informations de Service en attendant la parution de la nouvelle édition.

Le personnel des ateliers aura à respecter aussi les documentations concernant l'entretien préventif et les caractéristiques techniques.

Le lecteur trouvera au long du Manuel d'atelier, à droite des figures, des symboles; les inscriptions dans les figures (p.ex. p. 35, 42, 48) expriment une précaution concernant l'emploi de certaines matières ou produits d'entretien. Le lecteur aura à se familiariser tout d'abord avec la signification des symboles (voir plus loin la signification des symboles et la liste des lubrifiants, colles et produits d'entretien).

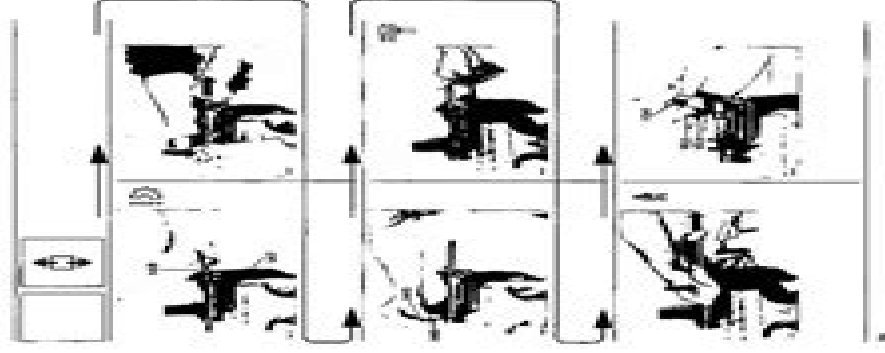

Ces symboles ont permis de raccourcir le texte et ils suffisent, accompagnés de la figure, à la bonne compréhension de l'intervention à accomplir.

L'élégance des figures débute par le découpage respectivement le démontage d'un ensemble constructif. La remise en place respectivement le rassemblement sont décrits de sorte que tout soit bien respecté afin de garantir le bon fonctionnement. Nous devons présumer que les travaux de nettoyage et d'inspection de chacun des constituants seront exécutés consciencieusement.

Les opérations de réglage, de relèvement des cotés et mesures sont décrites au long de l'explication accompagnant les figures; cette explication sera plus concrète lorsque'il s'agira d'une opération plus compliquée.

Nous nous réservons de procéder à des modifications constructives pour autant qu'elles découlent d'une amélioration technique.
