Passionate Public Speaking Silviu Vasile, This is a public speaking book it is not a manual but rather a motivational book one that you can read and re read over and over again A book to give you the courage to follow your path to success No matter what you do at some point in your journey you will need to learn public speaking and you need to do it well You can't evolve without public speaking just as you can't evolve without goal setting or time management It's not the speaking that's complicated it's the fear After you speak a few times it will be much better You just have to start In your next speeches you will choose to be more expressive more energetic more dynamic more vocal smile more and laugh with the audience Set these positive expectations don't be scared Every one of us started with this fear our opening speeches were lame and if someone filmed us then and showed us now how we started I think we would feel a little embarrassed That's exactly why don't be harsh on yourself I know you want to get as many results as possible immediately but for starters choose to be just a little bit better than yesterday a little bit better than those around you Don't want too much from yourself all at once because the weight of what you want will be too much for your untrained shoulders and that weight will overwhelm you Choose a steady workout and progressively increase the weight you put on your shoulders that's the only way you'll succeed in self improvement Try to make your message just a little bit better than the other speakers and for that try to prepare a little bit better than them This is the secret and if you can understand it then your life can be one of genuine success There are thousands of people who do this as a profession on a professional level That's probably what you want to do too I would think from the moment you bought or received this book as a gift What you need to understand right from the start is that the audience in the room is different There are many ways to characterize it but I think if you pick these three categories that I present in my public speaking books it will be much easier for you to calibrate to the audience and control the room Understand that the audience will have three attitudes towards you these attitudes overlap the three groups

you have in the room The audience judges you and evaluates you according to their own criteria Why is public speaking vital Because no matter how much you speak in front of the mirror it is not the same as speaking in front of those who are watching you and who can give you feedback No matter how good that speech in the mirror is you will not get feedback from your reflected image Mirror speaking is just the beginning of your public speaking career The real test is whether or not you pass in front of an audience Public speaking will increase your influence and make you a better leader Genuine leaders know how to speak and their messages get into the minds and hearts of those who listen You too can become a great leader by building the influence you need step by step through the Culture of Value *Values Information from AI* The Values We Share Project, Values information from AI is a collection of information and images of values generated from an AI tool as part of The Values We Share Project to promote values All information in this book can be used to promote values and can be used as material in values formation programs All information in this book will also be used in The Values We Share Project videos materials and courses in the future Visit The Values We Share Project at <http://thevaluesweshare.info>
