Ppe Paper 1 March 2015 Foundation:

Philosophy, Politics, and Austrian Economics Daniel J. D'Amico, Adam G. Martin, 2020-10-29 Philosophy Politics and Economics as an interdisciplinary endeavour has surged in popularity in recent years Work in this field usually draws on standard microeconomics to grapple with questions from political philosophy But what might Austrian economics which provides an alternative approach have to offer to this endeavour

Black Climates Selina Nwulu, 2025-08-28 To want to save the planet a person has to have a sense of belonging in it What would a saved planet look like for a Black collective This book is validating and monumental Courttia Newland Sensitive powerful and necessary Joycelyn Longdon Globally Black people are among the most affected by the climate crisis despite contributing very little to it For a long time the crisis was portrayed as yet another injustice for Black people to care about on top of the day to day oppression they face In *Black Climates* Selina Nwulu reframes the crisis to encompass our disconnection from each other and the world around us She argues that the root of climate change lies in historical colonial violence and ongoing exploitation making it inherently racist Nwulu former Young People s Laureate for London uses her poetic and skilful voice to directly address Black British readers who have been previously ignored in mainstream environmental conversations She includes interviews with a wide range of creatives and campaigners to explore a variety of subjects including air pollution prison ecology disability justice migration food nature community care and radical imagination This is an essential and empowering read for anyone who wants to fully understand the connections between Blackness and the climate crisis providing the tools to envisage more equitable futures

Resistance Shane Moran, 2021-04-19 In *Resistance* Sol Plaatje and South Africa Shane Moran studies Sol Plaatje the founding secretary of what was to become the African National Congress ANC and his work within the context of colonial politics and resistance Arguing for a return to the study of one of the founders of anti racism Moran explores issues of land reform human rights and the legacy of colonialism Through an in depth analysis of Plaatje s resistance to racial domination Moran examines the nature of the struggles that continue within and beyond South Africa today In particular Moran analyzes events from the beginning of the previous century that shaped post 1994 South Africa such as the resolution of the ANC to expropriate land without compensation

The Development of a Comprehensive Legal Framework for the Promotion of Offshore Wind Power Anton Ming-Zhi Gao, Chien-Te Fan, 2016-04-24 There is clearly an urgent need worldwide to increase the share of renewable energy in the overall energy supply as rapidly as possible With a well developed and proven feasible technology offshore wind power has come to the fore as the most promising means of achieving this goal However fragmented authorities and procedures may pose tremendous challenges to the development of an integrated legal framework for offshore wind and the complex

installation and grid interconnections it requires This book surveys and analyses the features essential for the development of such a framework drawing on the experience of ten countries that have such schemes in place France Germany the United Kingdom Italy Norway the United States Australia China Korea and Taiwan Discussing the impact of technological economic spatial and market issues on the legal framework eleven key policymakers in their respective countries contribute chapters that together reveal the contours of a strong and sound legal framework that serves to enable and facilitate the efficient application of policy initiatives and subsidies Topics and issues raised and examined include the ways a sound legal framework addresses the following aspects of offshore wind power development license schemes construction of turbines infrastructure of grid construction harbor and vessels environmental health and safety regulations and loan and finance risk The contributors show that a carefully planned mix of incentives and supplementary schemes is indispensable The essays are drawn on the presentations and papers offered at the International Conference on a Comprehensive Legal Framework for the Development of Offshore Wind Power Around the World held in Taiwan in August 2016 As a major new contribution to the debate on the importance of a legal framework for offshore wind power and grid interconnections this book will prove indispensable to lawyers policymakers officials and academics concerned with the management of sea space to include the wind power necessary to achieve and sustain renewable energy goals

From Crisis to Catastrophe Mignon Duffy, Amy Armenia, Kim Price-Glynn, 2023-05-12 The COVID pandemic has shaken the material and social foundations of the world more than any event in recent history and has highlighted and exacerbated a longstanding crisis of care While these challenges may be freshly visible to the public they are not new Over the last three decades a growing body of care scholarship has documented the inadequacy of the social organization of care around the world and the effect of the devaluation of care on workers families and communities In this volume a diverse group of care scholars bring their expertise to bear on this recent crisis In doing so they consider the ways in which the existing social organization of care in different countries around the globe amplified or mitigated the impact of COVID They also explore the global pandemic's impact on the conditions of care and its role in exacerbating deeply rooted gender race migration disability and other forms of inequality

Biosecurity, Economic Collapse, the State to Come Christos Boukalas, 2022-11-03 What kind of state emerges from the pandemic The pandemic caused two crises in biosecurity and in the economy The state was forced to tackle both but subduing one inevitably exacerbated the other Emerging from the impossible task of handling two conflicting crises is a new form of state the state to come To outline the emerging state this book offers an in depth critical account of the state's responses to the biosecurity and the economic crises It is thus the first study to address both crises ensuing from the pandemic and to synthesise the responses to them in a comprehensive account of political power Addressing biosecurity the book deciphers its key modalities epistemic premises its law the threat it aims to oppose and the ways in which it relates to public health and society especially its extraordinary power to suspend society Addressing the economic crisis the book deciphers the actuality

and prospects of both the economy and the state's economic policy. It claims that economic policy is now dual: it adopts countercyclical measures to serve and entrench a neoliberal economy. The responses to the twin crises inform the outline of the emerging state: its structure, logic and legality, its power and its relation to society. This is a state of extraordinary power but its only purpose is to preserve the social order intact. It is a despotic state, powerful and set to impose social stasis. This work offers ground-breaking analysis based on our pandemic experience. It is indispensable for critical scholars and students in Politics, Security Studies, Sociology, Law, Political Economy and Public Health.

Proceedings of the 26th International Symposium on Advancement of Construction Management and Real Estate Hongling Guo, Dongping Fang, Weisheng Lu, Yi Peng, 2022-09-01. This book of CRIOCM 2021 26th International Conference on Advancement of Construction Management and Real Estate presents the latest developments in real estate and construction management around the globe. The conference was organized by the Chinese Research Institute of Construction Management (CRIOCM) working in close collaboration with Tsinghua University. Written by international academics and professionals, the book discusses the latest achievements, research findings and advances in frontier disciplines in the field of construction management and real estate. Covering a wide range of topics including building information modeling, big data, geographic information systems, housing policies, management of infrastructure projects, intelligent construction and smart city, real estate finance and economics and urban planning and sustainability, the discussions provide valuable insights into the implementation of advanced construction project management and real estate market in China and abroad. The book offers an outstanding resource for academics and professionals.

Social Computing, Behavioral-Cultural Modeling, and Prediction Nitin Agarwal, Kevin Xu, Nathaniel Osgood, 2015-03-16. This book constitutes the refereed proceedings of the 8th International Conference on Social Computing, Behavioral-Cultural Modeling and Prediction (SBP 2015) held in Washington DC, USA in March/April 2015. The 24 full papers presented together with 36 poster papers were carefully reviewed and selected from 118 submissions. The goal of the conference was to advance our understanding of human behavior through the development and application of mathematical, computational, statistical, simulation, predictive and other models that provide fundamental insights into factors contributing to human socio-cultural dynamics. The topical areas addressed by the papers are social and behavioral sciences, health sciences, engineering, computer and information science.

New Opportunities and Challenges in Occupational Safety and Health Management Daniel Podgórski, 2020-07-08. Global economy and its business environment and thus the world of work have recently been influenced by demographic and social changes, globalisation as well as rapid development and introduction of novel, sophisticated and previously unknown technologies and new business models, especially in the context of the so-called fourth industrial revolution. These changes pose a number of challenges in terms of maintaining and improving occupational safety and health (OSH) management performance as traditional approaches to OSH management in new working environments may no longer be effective. In view of the above, the overall goal of this book is to present new

approaches and methods for improving the effectiveness of OSH management. They are based on state of the art research and are in line with the latest trends and concepts in the field. The book focuses on five thematic areas which are discussed in respective chapters:

- 1 Implementing the process approach to OSH management
- 2 Improving OSH management systems with fuzzy cognitive maps
- 3 Implementing strategic thinking approaches in relation to OSH management
- 4 Integrating OSH management within the framework of the CSR concept
- 5 Enhancing OSH management processes through the use of smart digital technologies

The methods and solutions discussed may be considered as specific opportunities for the improvement to be taken into account in the processes of implementing and maintaining an OSH management system in light of the requirements of the new ISO 45001 standard.
