Rural Life and Rural Church Leslie J. Francis, Mandy Robbins, 2014-10-20 The essays brought together here present a broad assessment of the serious issues facing rural life and the rural church today The authors are drawn from the Anglican Baptist Methodist and Pentecostal Churches The essays explore a wide range of biblical theological sociological and historical concerns and topics Throughout the book is informed by a spirit of listening to church goers clergy church leaders and local communities Rural Life and Rural Church provides an invaluable resource for clergy and lay Christians involved in rural ministry initial and continuing ministerial education and Christian men and women living in the countryside

Location, Space and Place in Religious Education Martin Rothgangel, Kerstin von Brömssen, Hans-Günter Heimbrock, Geir Skeie, 2017 People form attachments to their home their neighbourhood and environment to the region and nation to which they belong They express feelings about space and place especially so in globalized times In religious studies in theology and in education there is a growing interest in spatial theories either as constructed within national borders or within international and transnational spaces The spatial turn has become an acknowledged term in interdisciplinary discourses Although every practice of religious education is situated and contextually dependent religious education RE research until now has not systematically paid attention to this fundamental insight This volume is devoted specifically to clarifying the close relationship between RE practice and spatial and situational conditions After clarifying the main concepts in Part 1 Part 2 includes chapters related to classroom studies while Part 3 focuses on studies about teachers of religious education Part 4 contains studies beyond the classroom such as school chapels churches and inner space All contributions to this volume were developed in the context of the European Network for Religious Education through Contextual Approaches ENRECA which has focused recently on the central issue of space and place

Religious Identity and National Heritage Francis-Vincent Anthony, 2012-05-18 In some parts of our world religion is on the wane losing its thrust of doctrinal authority and communal bonds In other regions it is gaining public significance as a powerful social cultural and political force Secularization theories are less successful in accounting for these differences in religion's role Other theories describe religion in terms of social capital to be invested whenever it offers certain personal social or political benefits and market opportunities allow smart choices Still other theories simply hold that religion corresponds to an inborn need or stable disposition that guarantees a culture's identity and reflects a natural equilibrium of social cohesion There are also critical theories that point to the intrinsic relationship of religion with power and identify it as a major cause of tension and conflict In this book distinguished scholars reflect on these questions and present empirical research about religious identity and national heritage

The Place of the Parish Martin Robinson, 2020-02-28 For a long time it looked as if the idea of the local and therefore of place seen as locality seemed to have lost its relevance Much of the church lost any sense that geographical context matters Yet that tendency to pull people out of their context has played to a consumerist mentality that sees church more as a consumer

choice than a genuine community Now a shift seems to be underway that values locality much more a resurgence of interest in the parish and the importance of the church's presence in community In *The Place of the Parish* Martin Robinson explores this shift considering how it is manifested in a variety of contexts rural inner city Anglican and independent Drawing on specific examples linked to the so called New Parish Movement he demonstrates how a theology of place is made manifest in the mission of the church today
