Letters Between Mothers and Daughters Barbara Caine,2018-02-02 There are now many studies of family letters in Europe but most of them focus on marital letters and letters between parents especially mothers and their sons Little attention has been paid to the letters to and from daughters This volume seeks to begin filling that gap by exploring the continuities and changes evident in the letters written between mothers and daughters over several centuries Some of these changes reflect the history of letters and the ways that they were written and delivered especially the move from the use of scribes and couriers in the medieval and early modern period which made both the writing and reading of letters a public affair to the use of pens and the situation in which letters were able to be written in private and read only by the person to whom they were addressed But the letters also reveal the

changing nature of the mother and daughter relationship as the formal and more distant ties evident in the early period in which dynastic and other matters were often more important to a mother than her daughter's personal happiness were replaced by closer and more intimate ties and a concern with particular personalities and individual needs This book was originally published as a special issue of *Women's History Review* **Migrant Letters** Marcelo J. Borges, Sonia Cancian, 2019-10-23 The migrant letter whether written by family members lovers friends or others is a document that continues to attract the attention of scholars and general readers alike What is it about migrant letters that fascinates us Is it nostalgia for a distant yet desired past Is it the consequence of the eclipse of letter writing in an age of digital communication technologies Or is it about the parallels between transnational experiences in previous mass migrations and in the current globalized world and the centrality of interpersonal relations mobility and communication then and now Influenced by methodologies from diverse disciplines the study of migrant letters has developed in myriad directions Scholars have examined migrant letters through such lenses as identity and self making family relations gender and emotions This volume contributes to this discussion by exploring the connection between the practice of letter writing and the emotional economic familial and gendered experiences of men and women separated by migration It combines theoretical and empirical discussions which illuminate a variety of historical experiences of migrants who built transnational lives as they moved across Europe Africa Latin America and the United States This volume was originally published as a special issue of *The History of Family Letters, Kinship, and Social Mobility in Nigeria* Olufemi Vaughan, 2023-08-15 In 2003 Olufemi Vaughan received from his ninety five year old father Abiodun a trove of more than 3 000 letters written by four generations of his family in Ibadan Nigeria between 1926 to 1994 The men and women who wrote these letters had emerged from the religious social and educational institutions established by the Church Missionary Society the preeminent Anglican mission in the Atlantic Nigerian region following the imposition of British colonial rule Abiodun recruited to be a civil servant in the colonial administration became the patriarch of a prominent family with historical roots in both West Africa and the Americas his family was the subject of articles in *Ebony* and *Jet* as well as in acclaimed histories Reading deeply in these letters Olufemi realized he had a unique set of sources that could be used to illuminate everyday life for this important segment of Nigerian society Letter writing was a dominant form of communication for western educated elites in colonial Africa especially in Nigeria Exposure and an altruistic sense of nationalism were among the factors that led people to begin exchanging letters particularly in their interactions with British colonial authorities Through careful textual analysis and broad contextualization Vaughan reconstructs dominant storylines including themes such as people's relationships with colonial authorities and bureaucracy ideas about faith and kinship nationalism and communal development Vaughan brings his prodigious skills as a historian to bear on this wealth of information bringing to life a portrait at once intimate and expansive of a community during a transformative period in African history **The Georgia of the North** Hettie V. Williams, 2024-07-12 The Georgia

of the North is a historical narrative about Black women and the long civil rights movement in New Jersey from the Great Migration to 1954 Specifically the critical role played by Black women in forging interracial cross class and cross gender alliances at the local and national level and their role in securing the passage of progressive civil rights legislation in the Garden State is at the core of this book This narrative is largely defined by a central question How and why did New Jersey s Black leaders community members and women in particular affect major civil rights legislation legal equality and integration a decade before the Brown v Board of Education Topeka Kansas decision In this analysis the history of the early Black freedom struggle in New Jersey is predicated on the argument that the Civil Rights Movement began in New Jersey and that Black women were central actors in this struggle *Love Letters to My Daughters and Granddaughters* Bryn Bass

juvenile offenders in modern Western history The last few decades have witnessed major debates over youth justice policies Juvenile and youth justice legislation has been reviewed in a number of countries Despite the fact that new perspectives such as restorative justice have emerged the debates have largely focused on issues that bring us back to the inception of juvenile justice namely whether youth justice ought to be more akin to punitive adult criminal justice or more sensitive to the welfare of youths This issue has been at the core of policy choices that have given juvenile justice its orientations since the beginning of the twentieth century It also gave shape to the evolution that paved the way for the creation of juvenile courts in the nineteenth century Understanding those early debates is essential if we are to understand current debates and place them into perspective Based on primary archival research this comprehensive study begins by presenting the roots birth and evolution of juvenile justice from the nineteenth century up to the beginning of the twenty first The second part deals with nineteenth century responses to juvenile delinquency in England and Canada while the third focuses on the welfare orientation that characterized juvenile courts in the first half of the twentieth century in Switzerland the Netherlands Germany and Belgium Finally the fourth part focuses on the perspective of the youths and their families in Belgium France and Canada
