Colorado State University Essential Interviewing and Counseling Skills Tracy A. Prout, Melanie J. Wadkins, 2014-03-27
This is the only comprehensive text to focus on the development of practical interviewing and counseling skills for master's level mental health counseling students. It is structured around the goals established by the CACREP's 2009 document on standards for MHC programs and uniquely encompasses both theory and practice from the perspectives of a diverse array of theoretical schools and practice strategies. The benefits of integrating complementary therapy approaches according to the needs of the client and the importance of multicultural considerations in interviewing and counseling are consistent themes throughout. The book's hands-on guidance regarding interviewing and counseling skills along with its embrace of different therapeutic modalities will enable students to learn how to provide care to clients that is tailored to their specific needs. Each chapter includes a highlighted section that draws students' attention to topics related to diversity and strategies for working with clients from a variety of populations. Issues related to race, ethnicity, immigration, and country of origin are highlighted along with age, gender, sexual orientation, religion, language, and physical and cognitive abilities. The use of case examples from multiple theoretical orientations offers a realistic view of what actually occurs in a consulting room. The book also addresses working with clients who have serious emotional or psychological difficulties and covers evidenced-based practice, assessment, and diagnosis, and when and how to terminate treatment. An instructor's guide and PowerPoint slides are also included. **Key Features:** Provides a balanced, integrated theoretical and practical approach to interviewing and counseling with a focus on skills development. Teaches the fundamental skills of empathy, active listening, treatment planning, and developing a strong therapeutic alliance. Includes Spotlight on Culture sections with case studies to emphasize how diversity informs sensitive and effective psychotherapy. Provides exercises to help students discover their own blind spots in regard to diversity. Offers a realistic window into the profession through numerous case examples. DSM-5 in Action Sophia F. Dziegielewska, 2014-10-20. Full exploitation of the DSM 5 allows for more comprehensive care. By demystifying the DSM 5, author Sophia Dziegielewska goes beyond the traditional diagnostic assessment and suggests both treatment plans and practice strategy. She covers the changes in criteria to the DSM 5 and what those changes mean for mental health professionals. This resource has been updated to include New and updated treatment plans. All treatment plans, interventions, strategies, applications, and practice implications are evidence-based. Instructions on doing diagnostic assessments and differential diagnosis using the DSM 5. Changes to coding and billing using the DSM 5 and ICD 10. The book includes robust tools for students, instructors, and new graduates seeking licensure. DSM 5 in Action makes the DSM 5 accessible to all practitioners, allowing for more accurate, comprehensive care. **The Parenting Skills Treatment Planner, with DSM-5 Updates** David J.
