

<p>1</p> <p>Observation: Lily's Flowers, April</p> <p>Lily and Sue sat together with Sue watching Lily as she tried to copy the postcard of flowers. Annabelle walked past and was interested, so stopped to watch Lily.</p>	<p>Interpretation and analysis</p> <p>Lily was keen to mix and stir the paints herself. She was happy with her painting and smiled while painting.</p>	<p>Learning possibilities and intentional teaching</p> <p>Change the paints available for Lily and Annabelle and add long-handled brushes.</p> <p>Bring in some books about flowers.</p> <p>Have Sue work with a small group each day this week and keep the sample for Mother's Day.</p>	<p>Comment</p> <p>Why change the paints and for what purpose?</p> <p>What is the purpose of this learning possibility?</p> <p>The learning possibilities are not linked with the children's interests; they are introduced on the basis of one child's interest with the expectation that all children will become involved.</p>
<p>2</p> <p>Observation: Lily's Flowers, 21 April</p> <p>Sue, Lily and Annabelle sit and talk together while Lily paints her picture of flowers from the postcard.</p> <p>Lily talks with Annabelle and Sue about the colours she is using.</p>	<p>Interpretation and analysis</p> <p>Lily seems very interested in painting using the postcard flowers as a reference point.</p> <p>She smiles and talks with Sue and Annabelle and is keen to mix the paints with Annabelle watching.</p>	<p>Learning possibilities and intentional teaching</p> <p>Add some new colours to the paints tomorrow and use some new postcards.</p> <p>Get Sue to model wiping the brushes down rather than wiping them for Lily – helps with independence.</p> <p>See if Annabelle wants to join in tomorrow.</p>	<p>Comment</p> <p>It is not clear why the teacher is making these choices and decisions.</p> <p>No connections are made to learning and development areas.</p>
<p>3</p> <p>Observation: Lily's Flowers, 21 April</p> <p>Lily, Sue and Annabelle — Indoor play</p> <p>Lily has been experimenting with paint combinations over several days. In discussion with Sue (assistant), we decided to introduce small pots of paints and a mixing palette (off screen) so that Lily could create her own colour combinations.</p> <p>Sue introduced a postcard of flowers as Lily has been talking about the flowers in her own garden at home.</p> <p>As Lily painted she looked at the postcard very carefully, used the same colours on her paper and attempted to represent the flowers in the same way as the postcard. As she painted she said to Annabelle "I'm using gold first 'cause that's my favourite, then the green." Annabelle then passed the red paint and laughed "red's last!" Lily laughed and took the pot, stirring vigorously.</p>	<p>Interpretation/analysis</p> <p>Working at the table appeared to invite more possibilities for Lily to share conversation with others than at the easels.</p> <p>Lily's attention to detail (through action and conversation), signal her interest in the experience.</p> <p>Lily was particularly interested in this experience and represented the colours of the postcard flowers in the same relative location on her paper. She is attempting to represent the flowers through close observation and attention to placement of colours.</p> <p>Link to QKLG: Active learning — ways to represent ideas creatively through art, showing confidence and involvement in learning.</p>	<p>Learning possibilities & intentional teaching</p> <p>Learning opportunities for Lily</p> <p>Encourage Lily to bring in some of her flowers to share.</p> <p>Introduce more postcards of artworks.</p> <p>Model observational drawing and talk through the steps as we draw/paint.</p> <p>Opportunities for other children</p> <p>Introduce small pump bottles of paint and mixing palettes so Lily can experiment independently at any time.</p> <p>Share this paint pump idea with all the children and move materials to a larger table space so that children can work alongside one another.</p> <p>Create a painting space next to shelving. Use the shelves to store a range of art materials to provide opportunities for all the children to engage creatively (promoting independence and choice).</p> <p>Encourage children to suggest materials they would like to access.</p>	<p>Comment</p> <p>The learning possibilities highlight the development of independence, decision-making and creativity which link to the learning and development area of Active learning.</p> <p>The detailed list of possibilities for extending the learning provides intentional teaching responses related to the individual child and group, resources and room layout. The intentional teaching strategies also include modelling of drawing skills.</p> <p>Note: An experienced teacher might note significant intended interactions with children. Practical and organisational changes are likely to happen as part of the teacher's thinking rather than be recorded.</p>

Early Childhood Education Petr G. Grotewell,Yanus R. Burton,2008 This book focuses on early childhood education which spans the human life from birth to age 8 Infants and toddlers experience life more holistically than any other age group Social emotional cognitive language and physical lessons are not learned separately by very young

children Adults who are most helpful to young children interact in ways that understand that the child is learning from the whole experience not just that part of the experience to which the adult gives attention Although early childhood education does not have to occur in the absence of the parent or primary caregiver this term is sometimes used to denote education by someone other than these the parent or primary caregiver Both research in the field and early childhood educators view the parents as an integral part of the early childhood education process Early childhood education takes many forms depending on the theoretical and educational beliefs of the educator or parent Other terms that is often used interchangeably with early childhood education are early childhood learning early care and early education Much of the first two years of life are spent in the creation of a child s first sense of self or the building of a first identity Because this is a crucial part of children s makeup how they first see themselves how they think they should function how they expect others to function in relation to them early care must ensure that in addition to carefully selected and trained caregivers links with family home culture and home language are a central part of program policy If care becomes a substitute for rather than a support of family children may develop a less than positive sense of who they are and where they come from because of their child care experience
