common system integration use cases Harness the power of AppExchange solutions for sales Who this book is for This book is for administrators consultants and business analysts who want to understand and apply the capabilities of Salesforce Sales Cloud Whether you re completely new to Sales Cloud or enhancing existing functionalities within your organization this handbook is your trusted companion Business stakeholders responsible for or involved in Sales Cloud implementations will also benefit from this book IBM i2 Integrated Law Enforcement: Technical Architecture and Deployment Guide Wil Jamison,John Dowling,IBM Redbooks,2014-11-17 IBM i2 Integrated Law Enforcement is an IBM Smarter Cities solution that addresses the needs of modern day law enforcement agencies It is a solution framework that provides the individual capabilities of the products that comprise the solution and extended capabilities developed through the synergistic integration of those product components As a framework IBM i2 Integrated Law Enforcement allows for the continuous expansion of capabilities by putting together building blocks within the system and integrating with new external systems In doing so an organization can respond and adapt to its changing needs Simply stated the configuration integration and implementation of IBM i2 Integrated Law Enforcement and its components provide the tools for more effective law enforcement This IBM Redpaper™ publication explains the technology and the architecture on which the solution is built Most importantly this paper enables technical teams to install configure and deploy an instance of the i2 Integrated Law Enforcement solution using the product i2 Intelligent Law Enforcement V1 0 1 This paper is targeted to solution architects system and deployment engineers security specialists data management experts system analysts software developers and test engineers and system administrators Readers of this paper will benefit from the IBM Redguide™ publication Integrated Law Enforcement A Holistic Approach to Solving Crime REDP 5116 The AMA Handbook of Business Writing Kevin Wilson,Jennifer Wauson,2010-08-04 This invaluable resource gives you quick accessible guidelines to the entire writing process from using correct grammar and style to formatting your document for clarity to writing effectively for a target audience When it comes to writing do you know how many businesspeople are just winging it It clearly shows in sloppy grammar incomprehensible language poorly structured documents shoddy research and downright ugly formatting Whether it s a simple business letter or a hefty annual report poor writing looks bad for the organization and it really looks bad for the person producing it This is a remarkably comprehensive reference and remarkably easy to pinpoint the information you need to complete any writing project such as annual reports newsletters press releases business plans grant proposals training manuals PowerPoint presentations or any piece of formal correspondence The AMA Handbook of Business Writing is designed for businesspeople of every stripe from marketing managers to human resources directors from technical writers to public relations professionals from administrative assistants to sales managers This helpful guide is a complete A to Z reference on everything you need to produce top quality documents Offering the expansive breadth of information found in The Chicago Manual of Style but without the excessive detail and complexity you ll find here more than 600 pages of

instantly accessible thoroughly useful information for getting any job done With examples and cross references throughout The AMA Handbook of Business Writing is an indispensable desktop reference for every business professional

Software Project Management S. Ramanathan, 2016-05-03 Software development has turned truly global with requirement gathering and design at one location and program development at another Cost advantage has moved more and more of the software life cycle activities to the developing nations like India and the Philippines While outsourcing many companies in the US and other Western countries find project management an area that needs improvement in the emerging service provider nations Processes and teams across different geographical locations make the management all the more challenging It is precisely this need that this book intends to address The author has extensive management experience in IT projects in the manufacturing banking and telecom domains and distills that experience to narrate the project management knowledge areas with real life examples and case studies Many books and articles have described the challenges faced by the US project manager in dealing with a contractor in another country but the remedial measures for this skill gap needs to emerge within the cultural context of the service provider nations This book addresses this challenge primarily from an Indian perspective which can be extended to many other developing nations Billions of dollars of US and European projects are now being handled in India and other developing countries and thousands of project managers have to emerge from the talent pools of these countries to efficiently manage this investment It is with an intent to develop these skills this book has been written
