Power And Politics In California:

Power and Politics in California Ken Debow, John Syer, 2015-12-22 Now in its ninth edition *Power and Politics in California* continues its tradition of asking Californians to take a hard and systematic look at their state governance and engage themselves in a critical analysis of what is working what is not and what changes need to be made for the state to meet the increasingly formidable challenges it faces The era of Arnold is now in its mid stages and the rise of this very different political personality has had significant impacts on the state This ninth edition provides analysis of Governor Schwarzenegger in context and looks forward to how California's fiscal condition educational system and response to diversity will play a vital role in shaping the state's politics in the future *Power and Politics in California* John H. Culver, John C. Syer, 1988-01-01

Power and Politics in California John H. Culver, John C. Syer, 1984-01-01 *Power and Politics in California* Addison-Wesley Longman, Incorporated, 1999-12-01 **State, Power and Politics in the Making of the Modern Middle**

East Roger Owen, 2013-01-11 Roger Owen has fully revised and updated his authoritative text to take into account the latest developments in the Middle East This book continues to serve as an excellent introduction for newcomers to the modern history and politics of this fascinating region This third edition continues to explore the emergence of individual Middle Eastern states since the fall of the Ottoman Empire at the end of the First World War and the key themes that have characterized the region since then **Women, Power, and Politics** Lori Cox Han, Caroline Heldman, 2023-05-29 As

women continue to gain more prominence as active participants in the American political and electoral process as voters candidates and officeholders it becomes even more important to understand how gender shapes political power and the distribution of resources within our society There are many areas of research in a variety of disciplines focusing on women gender and feminism and many of them intersect with a discussion of women in American politics Our goal in writing this book is to present these topics in an interesting lively and timely way through an analysis of contemporary political gender related issues We hope to have provided just enough of an historical context to get students interested in the evolution of women in American political life and enough theory and analysis to inspire them to seek more information and knowledge about gender justice today The study of women and U S politics as well as the role gender plays in the broader political context has emerged as a powerful voice within the discipline of Political Science in the last few decades As such we hope that readers find this text a useful addition to the ongoing dialogue while instructors find it to be a useful pedagogical tool for their courses on women gender and politics *Sustainable Energy Transformations, Power and Politics* Sharlissa

Moore, 2018-09-03 This book analyses energy transitions and the opportunities and challenges for building sustainable energy systems to improve human capabilities while protecting the environment Sufficient and secure energy supply is critical to human thriving and socioeconomic development Yet energy systems are also implicated in the most pressing socio environmental challenges of our time climate change air pollution and water and land use This book examines what is

arguably the most ambitious vision for a renewable energy based system worldwide This vision often called Desertec is for a regional electricity system supplying North Africa Europe and the Middle East with sustainable and affordable power The behemoth plan would entail building dozens of large scale solar and wind power plants mostly in North Africa interconnecting the fragmented transmission infrastructure of 38 Mediterranean countries and linking North Africa to the European Union EU through undersea transmission cables Within the Mediterranean the book focuses on Morocco which is one of the most advanced developing countries in renewable energy scale up to understand its motivations for building renewable energy and the effects on sustainable development The book therefore takes a unique multi scalar approach to understanding the social and political aspects of energy transitions weaving together the views of villagers living near Morocco s first solar energy zone with the perspectives of national decision makers in Morocco with the views of European policymakers and major transnational energy companies in the Mediterranean region This book will be of great interest to students scholars and policymakers interested in energy transitions sustainable and renewable energy Mediterranean politics sustainable development and environment and sustainability more generally

State Power and Politics in the Making of the Modern Middle East

Lecturer in the Recent Economic History of the Middle East and Fellow Roger Owen, Roger Owen, 2002-04-12 Roger Owen has fully revised and updated his authoritative text to take into account the considerable developments in the Middle East in the 1990s Piety, Power, and Politics Douglas Sullivan-González, 2014-01-29 Douglass Sullivan Gonzalez examines the influence of religion on the development of nationalism in Guatemala during the period 1821-1871 focusing on the relationship between Rafael Carrera and the Guatemalan Catholic Church He illustrates the peculiar and fascinating blend of religious fervor popular power and caudillo politics that inspired a multiethnic and multiclass alliance to defend the Guatemalan nation in the mid nineteenth century Led by the military strongman Rafael Carrera an unlikely coalition of mestizos Indians and creoles whites born in the Americas overcame a devastating civil war in the late 1840s and withstood two threats 1851 and 1863 from neighboring Honduras and El Salvador that aimed at reintegrating conservative Guatemala into a liberal federation of Central American nations Sullivan Gonzalez shows that religious discourse and ritual were crucial to the successful construction and defense of independent Guatemala Sermons commemorating independence from Spain developed a covenantal theology that affirmed divine protection if the Guatemalan people embraced Catholicism Sullivan Gonzalez examines the extent to which this religious and nationalist discourse was popularly appropriated Recently opened archives of the Guatemalan Catholic Church revealed that the largely mestizo population of the central and eastern highlands responded favorably to the church s message Records indicate that Carrera depended upon the clerics ability to pacify the rebellious inhabitants during Guatemala s civil war 1847-1851 and to rally them to Guatemala s defense against foreign invaders Though hostile to whites and mestizos the majority indigenous population of the western highlands identified with Carrera as their liberator Their admiration for and loyalty to Carrera

allowed them a territory that far exceeded their own social space Though populist and antidemocratic the historic legacy of the Carrera years is the Guatemalan nation Sullivan Gonzalez details how theological discourse popular claims emerging from mestizo and Indian communities and the caudillo s ability to finesse his enemies enabled Carrera to bring together divergent and contradictory interests to bind many nations into one Power and Politics in University Governance Imanol Ordorika Sacristán, Imanol Ordorika, 2003 Drawing from a case study of the Universidad Nacional Autónoma de México this work analyses the connection between political processes and change in higher education The author explains that while there are increasing demands these have not produced rapid responses from the university and tries to understand why this lack of response has generated internal and external tensions and conflictive dynamics
