A Republican's Lament Bill Crawford, 2024-10-15 Bill Crawford thought his modern day Republican Party would lift Mississippi off the bottom a notion born of Gil Carmichael's vision for good government conservatism A Republican's Lament tells of Crawford's dedicated efforts to implement Carmichael's vision his keen observations of Mississippi's struggles and his critical commentaries over the past half century For more than fifty years few people have had a better view or a wider variety of roles in the ups and downs of Mississippi and its communities than Crawford The Canton native has been a daily newspaper reporter a crusading small town weekly editor a Republican Party leader a reform minded Republican state representative an influential Institutions of Higher Learning board trustee a

successful banker a community college administrator a state economic development official a community development leader and nonprofit founder a mentor of developing community leaders and a syndicated political columnist From Gil Carmichael's vision for good government and Haley Barbour's pragmatic conservatism to starve the beast and truth management politics poverty and the Cycle of Prosperity Faulkner's curse and other behavioral shadows the Ayers case and more Crawford weaves a unique and eventful story about his home state's enduring dilemmas and a clarion call for its better possibilities

Terahertz Frequency Detection and Identification of Materials and Objects R.E. Miles,X.-C. Zhang,H. Eisele,A. Krotkus,2007-09-08 Terahertz frequency sensing has a unique part to play in the detection and identification of materials and objects This frequency range corresponding to a wavelength of around 0.1 mm can be used to identify materials from their molecular spectra and to produce images of concealed objects Terahertz spectra of drugs of abuse and explosives presented by a number of the contributing authors show that the presence of these materials can be detected in envelopes packages and through clothing The technology of terahertz detection has largely been developed around expensive and bulky femtosecond laser systems but as described in this book advances in semiconductor superlattice technology are leading to compact electronic sources such as the quantum cascade laser two terminal Gunn type oscillators and even a THz frequency amplifier These advances towards electronic as opposed to optical THz systems mean that the technology will become portable and much less costly Terahertz remote sensing is also discussed with the possibility of detection over distances of up to 30m using existing technology or even through the use THz waves generated locally in the vicinity of a target using only air as the transducer
