Power Privilege And Difference:

Privilege, Power, and Difference Allan G. Johnson, 2001 This brief supplemental book provides students with an easily applied theoretical model for thinking about systems of privilege and difference Writing in accessible conversational prose Johnson joins theory with engaging examples in ways that enable students to see the nature and consequences of privilege and their connection to it

Stories of Inclusion? Deborah A. Piatelli, 2009-01-16 Why are some white middle class activists experiencing difficulty creating alliances across racial and class differences What are the obstacles and what is being done to overcome them What type of movement structures cultures and practices can best facilitate inter racial inter class solidarity Stories of Inclusion explores these questions through an ethnographic study of a predominately white middle class contemporary peace and justice network that is working to create a racially and class diverse community of activists Addressing a very significant and greatly under researched topic Stories of Inclusion raises important and critical questions for the peace movement as well as larger society In accessible prose this study bridges the literatures of social movement theory critical race studies and feminist theory and offers new insight into how power and privilege can affect the process of creating inclusive communities Drawing on data the author collected through in depth interviews interpretive focus groups and over two years of participant observation this study explores how white middle class privilege influences political analyses definitions of peace work and approaches to alliance building The findings are compelling and reveal that even those who have developed an oppositional political consciousness and have pledged to work across racial and class divides can still foster exclusive organizing practices This study also offers examples on how some activists are acknowledging privilege transforming their worldviews and beginning to establish fruitful relationships across differences This important work emphasizes the continuing importance of race for those collective actors attempting to construct inclusive movements across diverse groups while also offering important practical solutions on how to bridge differences The conclusion offers a framework for building a new agenda for the peace and justice movement

Unwrapping Racism: Dealing with Differences Chuck Grose, 2023-09-25 A journey of 1 000 miles begins with a single step Lao Tzu Unwrapping Racism Dealing with Differences will connect the reader with recent social movements such as gun safety Black Lives Matter and college reform movements The Early social movements would portray racial discrimination within the Women s Suffrage Movement and the Eugenics Sterilization Movement The Civil Right Movement of 1950s 1960s highlights Rosa Parks Dr M L King Jr and Congressman John Lewis This book will present key issues such as cultural privilege and its prevalence The reader will be lifted up from xenophobia colonialism and slavery while creatively facing individual responses to those issues today All those approaches move into our societal goals of assimilation cultural pluralism and the melting pot concept This volume will make the perfect complement to Dr Grose previous book Dealing with differences Every reader can do something sometime somewhere to effectively deal with differences As the book confronts race it challenges the reader to grapple with action

oriented exercises questions and projects relevant to key paragraphs on every page At the end of the book the readers will be empowered to tell their own stories about their experiences with race within each chapter

Duoethnography Joe Norris, Richard D Sawyer, Darren Lund, 2016-09-16 Duoethnography is a collaborative research methodology in which two or more researchers juxtapose their life histories in order to provide multiple understandings of a social phenomenon Using their own biographies as sites of research and creating dialogic narratives they provide multiple perspectives of this phenomenon for the reader inviting the viewer to enter the conversation The dialectic process of creating duoethnography is also designed to be transformative to the writers In this volume two dozen scholars present the first wave of duoethnographic writings on topics as diverse as gender identity and curriculum with the editors framing key tenets of the methodology around the studies presented This participatory emancipatory methodology is of interest to those doing qualitative research and narrative writing in many disciplines

Dialogue Across Difference Patricia Gurin, Biren (Ratnesh) A. Nagda, Ximena Zuniga, 2013-03-15 Due to continuing immigration and increasing racial and ethnic inclusiveness higher education institutions in the United States are likely to grow ever more diverse in the 21st century This shift holds both promise and peril Increased inter ethnic contact could lead to a more fruitful learning environment that encourages collaboration On the other hand social identity and on campus diversity remain hotly contested issues that often raise intergroup tensions and inhibit discussion How can we help diverse students learn from each other and gain the competencies they will need in an increasingly multicultural America Dialogue Across Difference synthesizes three years worth of research from an innovative field experiment focused on improving intergroup understanding relationships and collaboration The result is a fascinating study of the potential of intergroup dialogue to improve relations across race and gender First developed in the late 1980s intergroup dialogues bring together an equal number of students from two different groups such as people of color and white people or women and men to share their perspectives and learn from each other To test the possible impact of such courses and to develop a standard of best practice the authors of Dialogue Across Difference incorporated various theories of social psychology higher education communication studies and social work to design and implement a uniform curriculum in nine universities across the country Unlike most studies on intergroup dialogue this project employed random assignment to enroll more than 1 450 students in experimental and control groups including in 26 dialogue courses and control groups on race and gender each Students admitted to the dialogue courses learned about racial and gender inequalities through readings role play activities and personal reflections The authors tracked students progress using a mixed method approach including longitudinal surveys content analyses of student papers interviews of students and videotapes of sessions The results are heartening Over the course of a term students who participated in intergroup dialogues developed more insight into how members of other groups perceive the world They also became more thoughtful about the structural underpinnings of inequality increased their motivation to bridge differences and intergroup empathy and placed a greater value on diversity

and collaborative action The authors also note that the effects of such courses were evident on nearly all measures While students did report an initial increase in negative emotions a possible indication of the difficulty of openly addressing race and gender that effect was no longer present a year after the course Overall the results are remarkably consistent and point to an optimistic conclusion intergroup dialogue is more than mere talk It fosters productive communication about and across differences in the service of greater collaboration for equity and justice Ambitious and timely Dialogue Across Difference presents a persuasive practical theoretical and empirical account of the benefits of intergroup dialogue The data and research presented in this volume offer a useful model for improving relations among different groups not just in the college setting but in the United States as well

Culturally Sensitive Supervision and Training Kenneth V. Hardy, Toby Bobes, 2016-06-10 Culturally Sensitive Supervision and Training Diverse Perspectives and Practical Applications is a comprehensive text that exposes readers to an array of culturally competent approaches to supervision and training The book consists of contributions from a culturally and professionally diverse group of scholars and clinicians who have been on the frontline of providing culturally competent supervision and training in a variety of settings Many of the invited contributing authors have developed innovative clinical teaching strategies for skillfully and effectively incorporating issues of culture into both the classroom and the consulting room A major portion of the book will provide the reader with an insider's view of these strategies as well as a plan for implementation with one chapter devoted to experiential exercises to enhance cultural sensitivity in supervision and training The text is intended for use in supervision courses but trainers and supervisors will also find it essential to their work
