Regression of Democracy? Gero Erdmann, Marianne Kneuer, 2013-06-21 Democratization since the implosion of the communist bloc displays a mixed balance While the neo democracies in Central Eastern European Countries can be seen as largely consolidated many other processes of democratization in other parts of the world such as Africa Asia and Latin America got stuck as unconsolidated or became defective democracies some regressed into hybrid regimes or were even turned into autocracies While transitology dealt with the transition from authoritarian rule the reverse process the transition from democratic rule remained almost completely outside the scholarly attention This special issue will address the problems of the regression of democracy and aims at closing the gap between research on democracy and democratization on one side and the emergence of authoritarian regimes on the other The contributions of this volume analyse the different phenomena in which decline of democracy fans out the loss of quality which means a silent regression the backslide into hybrid regimes hybridization and the breakdown of democracy *The Gentleman's Magazine* ,1821 **The New Monthly Magazine and Universal Register** ,1814 Geometry from the Pacific Rim A.
