are enough new colors and textures to turn the ear of skeptics who may get a little weary of Bonamassa's never ending string of releases at least two a year every year of the 2010s so far but the concert itself is also in danger of being too much of a good thing lasting almost two hours in its DVD BluRay incarnation and both have additional hour long making of documentaries The CD is shorter and contains judiciously selected highlights so the casual fans can turn there but really anybody who is a serious Bonamassa head will not be disappointed with this acoustic concert which offers more different and interesting sounds than any other previous Bonamassa album Stephen Thomas Erlewine
