Implementing an Inclusive Staffing Model for Today's

Reference Services Julia K. Nims, Paula Storm, Robert Stevens, 2013-11-26 Reference service remains a core function of modern libraries However how and where we provide assistance has evolved with changing technologies and the shifting habits and preferences of our users One way libraries can provide the on demand in person assistance while managing and developing new services and resources that will benefit current and future users is to reconsider how their reference points and services are staffed and adopt a staff based reference model The authors staff members at Eastern Michigan University chose to address this by implementing an inclusive reference model in which staff and student assistants are trained to answer certain levels of reference questions while working at the reference desk and at other service points The result was that librarians became more available to work with students who needed in depth assistance and users were able to get simple questions answered throughout the library Similar training for all staff and student assistants who work in the library results in better service more accurate answers and improved interdepartmental communication In **Implementing an Inclusive Staffing Model for Today's Reference Services** they describe step by step how to transition from the traditional librarian staffed reference desk to an inclusive reference model where non MLS personnel are equipped and empowered to answer reference questions wherever these questions might be asked Users ask questions of staff at all service points not just at the Reference Desk It is vitally important that those who work at circulation periodicals maps archives and other public service points be trained in how to answer certain reference questions When this is accomplished users who have simple questions will not have to make useless treks to the Reference Desk Topics covered include Recognizing that nearly all staff answer reference questions but few are trained to do so documenting the necessity for a change in reference model gaining buy in from all interested parties librarians non MLS staff and administrators determining the optimal staffing level creating training materials and schedules monitoring the quality of reference service supervising staff evaluating the new model using multiple methods Additionally each chapter contains practical resources such as checklists forms and sample materials and other usable features to support readers as they implement the inclusive reference model The book describes in detail the process of transforming traditional reference into a model that transcends departmental and job title boundaries is focused on the user and allows librarians to better utilize their time and talents and include non professional staff in their reference services

Care without Pathology

Christoph Hanssmann, 2023-11-21 Examining trans healthcare as a key site through which struggles for health and justice take shape Over the past two decades medical and therapeutic approaches to transgender patients have changed radically from treating a supposed pathology to offering gender affirming care Based on ethnographic fieldwork in New York City and Buenos Aires Care without Pathology moves across the Americas to show how trans health activists have taken on the project of depathologization In New York Christoph Hanssmann examines activist attempts to overturn bans on using public health dollars to fund trans health care In Argentina he traces how trans activists marshaled medical statistics and personal biographies to reveal state violence directed against trans people and travestis Hanssmann also demonstrates the importance of understanding transphobia in the broader context of gendered racism ableism and antipoverty arguing for the rise of a thoroughly coalition based mass mobilization Care without Pathology highlights the distributive arguments activists made to access state funding for health care combating state arguments that funding trans health care is too specialized too expensive and too controversial Hanssmann situates trans health as a crucible within which sweeping changes are taking place with potentially far reaching effects on the economic and racial barriers to accessing care
