

# Sample Scholarship Essays

For as long as I can remember I've known what I wanted to do with my life. Science has always been a passion of mine, and medicine in particular has interested me for some time. Dedicating my life to improving the lives of others is very appealing to me. After Michigan State, I plan on advancing to medical school to become a physician. I believe this program will offer me valuable skills that cannot be taught in the classroom.

Throughout high school and college thus far I have taken a rigorous curriculum and maintained a 4.0 grade point average. During high school I was involved in a physician shadowing program called medical mentorship. In addition, I volunteered at Sparrow Hospital this fall in patient transport. I am very familiar with and comfortable in clinical settings. I am responsible, focused, hard working and easy to get along with. I participated in a Freshman Study Abroad program this summer and thoroughly enjoyed it. Studying in a foreign country was an experience unlike any I've had. The classes were challenging and thought provoking. The city was breathtaking and I met many friends who I still keep in touch with.

Although I plan on practicing medicine in the United States, I believe that studying the differences between the British health care system and that of the United States would benefit me a great deal in the future. It would be a valuable opportunity for me to shadow a British physician, and compare that experience to the clinical exposure I've had in the United States. By participating in this program I hope to eventually combine the best of both worlds into my medical education and eventual practice. I plan to learn valuable skills that will one day make me a better doctor.
