

▶ Polycom® CMA™ Desktop – for Windows® Converged Management Application Desktop – PC

Computer-based video communication

Usability made easier

Polycom CMA Desktop – for Windows® is a robust and full-featured video communication software client that is deployed and managed by the Polycom CMA Server, a standards-based management application which enables large-scale directory services, centralised provisioning and management for thousands of video endpoints, including high definition telepresence, legacy video conferencing systems and other video infrastructure components.

The Polycom CMA Desktop application delivers high definition video and voice communication and standards-based content sharing with other desktop clients through the largest immersive telepresence rooms. Easy to learn and highly intuitive, the CMA Desktop allows users to simply point and click to call and collaborate with colleagues by video from anywhere, at any time. Integrated presence-awareness allows users to verify contact availability and status, and seamless Microsoft® LDAP directory integration both simplifies management and ensures contact list accuracy.

Polycom CMA Desktop clients are managed and monitored within the same video ecosystem as telepresence and traditional video conferencing systems, providing a powerful solution that spans all video client environments. Administrators easily configure the clients for account access, bandwidth allocation, directory services and other functions right from the management console via XML. CMA Desktop clients are included as a component of the CMA Server, with licensing based on the industry-recognised CAL (Client Access Licence) deployment model. Polycom CMA can support up to 5000 registered clients, including a mixture of Polycom CMA Desktop, telepresence and traditional video conferencing systems.

- ▶ Consistent usability across the entire video network reduces users' learning curves and increases productivity
- ▶ Enjoy high definition audio, video and content right from your desktop
- ▶ Supports up to 5000 software and other clients
- ▶ Management provides centralised control of clients for easy access
- ▶ Provisioning allows advanced setup to be done by the system administrator
- ▶ Easily measure return on investment with management that tracks and reports on system usage
- ▶ Seamless interoperability with other desktop systems through Immersive Telepresence
- ▶ Cost-effective way to video-enable the entire workforce with a one-off fee
- ▶ Ease-of-use with a powerful instant message-style interface
- ▶ Deployment is not restricted by users' physical locations – use in the office or on the road with ease

Polycom Cma Desktop User Guide
