Taylor and Tuskegee Ellen Weiss, 2012-01-01 Ellen Weiss breaks important new ground in her remarkable monograph on Robert R Taylor This volume is by far the most detailed account we have of an African American architect Weiss vividly conveys the immense challenges faced by black architects and professionals of every kind especially during the rise of Jim Crow Along the way we get myriad insights on architectural education architect client relationships and the development of a major institution of higher learning Richard Longstreth George Washington University Architectural historian Ellen Weiss's book provides a wealth of little known factual information about Taylor and a scholarly historical analysis of his many contributions in architectural education and professional practice A must read for anyone with an interest in architecture and a certain reference for every architecture

student Richard Dozier Dean Robert R Taylor School of Architecture Construction Science Tuskegee University Robert R Taylor's place in history as the first academically trained African American architect has been well known but an authoritative assessment of his contribution to American architectural and planning practice has remained elusive until now Weiss deftly interweaves the story of the Tuskegee campus with an examination of Taylor's pedagogy and the plight of black architects in the early twentieth century Gary Van Zante Curator of Architecture and Design Massachusetts Institute of Technology **Graham's American Monthly Magazine of Literature, Art, and Fashion ...** George R. Department of Printed Books, 1969 [The Oxford History of Life Writing: Volume 2. Early Modern](#) Alan Stewart, 2018-05-10 The Oxford History of Life Writing Volume 2 Early Modern explores life writing in England between 1500 and 1700 and argues that this was a period which saw remarkable innovations in biography autobiography and diary keeping that laid the foundations for our modern life writing The challenges wrought by the upheavals and the sixteenth century English Reformation and seventeenth century Civil Wars moulded British and early American life writing in unique and lasting ways While classical and medieval models continued to exercise considerable influence new forms began to challenge them The English Reformation banished the saints lives that dominated the writings of medieval Catholicism only to replace them with new lives of Protestant martyrs Novel forms of self accounting came into existence from the daily moral self accounting dictated by strands of Calvinism to the daily financial self accounting modelled on the new double entry book keeping This volume shows how the most ostensibly private journals were circulated to build godly communities how women found new modes of recording and understanding their disrupted lives how men started to compartmentalize their lives for public and private consumption The volume doesn't intend to present a strict chronological progression from the medieval to the modern nor to suggest the triumphant rise of the fact based historical biography Instead it portrays early modern England as a site of multiple sometimes conflicting possibilities for life writing all of which have something to teach us about how the period understood both the concept of a life and what it mean to write a life *Catalogue of the Printed Books in the Library of the Faculty of Advocates: S-Zypaeus. 1878* Faculty of Advocates (Scotland).
