Popular Photography ,1995-02 **Advancements and Improvements in General Hospital Psychiatry** Jinya Cao,Ying
Zhang ,Jing Wei,2024-06-11 Since the deinstitutionalization of major psychiatric centers general hospital psychiatry has been
playing a more and more important role in providing psychiatric services to the public But more than providing services to
psychiatric patients in general hospital settings general hospital psychiatry also has many other functions such as providing
consultation liaison C L services to physical patients with psychiatric comorbidity or psychiatric symptoms due to physical
conditions Many models of C L services are designed to best fit tasks such as making diagnoses and prescribing
pharmaceuticals helping with physical patients distressful emotions making chemotherapeutic interventions helping with
clinical communications between patients and their doctors and so on There is a high prevalence of psychiatric comorbidity
in general hospital inpatients of various physical departments Psychiatric comorbidity results in difficulty in clinical
communication longer hospitalization worse clinical outcomes and higher costs However psychiatric comorbidities are often

neglected and untreated We believe this phenomenon is caused by complex problems including but not limited to insufficient recognition an insufficient invitation for consultation the clinical challenge of complex multiple comorbidities and insufficient treatment *Popular Photography* ,1993-09 **Popular Photography - ND** ,1945-11 **Popular Photography** ,1993-07
