Romans et contes Voltaire,2015-10-02 *Romans et Contes -* Voltaire,2022-06-24 La diversité des textes permet de retrouver la verve et l'esprit de l'écrivain philosophe La diversité des sujets leurs enjeux dans la pensée voltairienne leurs correspondances sont riches en significations et sont soutenus par le génie narratif de leur auteur , *Romans et contes* Voltaire,1925 **The Literature of Egypt and the Soudan from the Earliest Times to the Year 1885 [i.e. 1887]**

Inclusive Prince Ibrahim-Hilmy (son of Ismail, Khedive of Egypt),1887 **Thinking About Tears** Marco Menin,2022-07-28
A crucial period for the birth of the modern subject France's long eighteenth century approximately 1650-1820 was an era marked by the formulation of a new aesthetic and ethical code revolving around the intensification of emotions and the hyperbolic use of weeping. Precisely because tears are not a simple biological fact but rather hang suspended between natural immediacy on one side and cultural artifice on the other the analysis of crying came to represent an exemplary testing ground for investigations into the enigmatic relations binding the realm of physiology to that of psychology. *Thinking About Tears* explores how the link between tears and sensibility in France's long eighteenth century helps shed light on the process through which the European emotional lexicon has been built from viewing tears as governed by the sphere of passions and feelings. Thinkers began to view crying as first a matter of sensibility and then of sensibility a pathological excess of sensibility thereby presupposing an intimate connection with the category of sentiments. For this reason this volume examines not only or even primarily the actual emotion of crying but also the attempt to think about and explain this feeling. Drawing on a wide range of early modern philosophical, medical, religious and literary texts including moral treatises on the passions, medical textbooks, letters, life writings, novels and stage plays *Thinking About Tears* reveals another side to a period that has too often been saddled with the cursory label of the age of reason *White Knights Library* Robert Harding Evans,2014-05-22 Reissued here together the two parts of the 1819 sale catalogue for one of the period's grandest libraries with annotations about prices and purchasers *The Fantastic and European Gothic* Matthew Gibson,2013-02-15 This book examines the rise of Fantastic literature on the continent in the nineteenth century the development of a European Gothic and the influence which this exerted on British writers. By examining writers like Noddy Hoffmann, Gautier, Flaubert and Stevenson the book argues firstly how their writings subvert entirely the view of the Fantastic accepted by Todorov, Punter and others to show that it is the reversal of a pre-Enlightenment spiritual world view which causes terror in these works and further demonstrates that Gothic novels frequently use allusion and anachronism to portray a cyclical view of history opposed to that of Scott **Ravishing Maidens** Kathryn Gravdal,2010-08-03 In this study of sexual violence and rape in French medieval literature and law Kathryn Gravdal examines an array of famous works never before analyzed in connection with sexual violence. Gravdal demonstrates the variety of techniques through which medieval discourse made rape acceptable.

contemporary medical and sophistic thought and techniques of argument has been widely recognised as long had been his dependence on and difference from earlier geographical and ethnographic writing This volume focuses on the place of these interests in his investigatory techniques and sets them alongside his many narrative skills from superficially traditional battle narrative and reworking of Greek or non Greek traditions that border on myth to the structuring of narrative by highlighting the life of objects and addresses such fundamental issues as how he chooses between competing explanations and how far he valued truth The book tackles many of the basic issues that confront any attempt to understand Herodotus work Iran and French Orientalism Julia Caterina Hartley, 2023-12-28 New translations of Persian literature into French the invention of the Aryan myth increased travel between France and Iran and the unveiling of artefacts from ancient Susa at the Louvre Museum are among the factors that radically altered France's perception of Iran during the long nineteenth century And this is reflected in the literary culture of the period In an ambitious study spanning poetry historiography fiction travel writing ballet opera and marionette theatre Julia Hartley reveals the unique place that Iran held in the French literary imagination between 1829 and 1912 Iran's history and culture remained a constant source of inspiration across different generations and artistic movements from the Oriental poems of Victor Hugo to those of Anna de Noailles and Thophile Gautier's strategic citation of Persian poetry to his daughter Judith Gautier's full blown rewriting of a Persian epic Writing about Iran could also serve to articulate new visions of world history and religion as was the case in the intellectual debates that took place between Michelet Renan and Al Afghani Alternatively joyous as in Flicien David's opera Lalla Roukh and ominous as in Massenet's Le Mage Iran elicited a multiplicity of treatments This is most obvious in the travelogues of Flandin Gobineau Loti Jane Dieulafoy and Marthe Bibesco which describe the same cities and cultural practices in altogether different ways Under these writers pens Iran emerges as both an Oriental other and an alter ego its culture elevated above that of all other Muslim nations At times this led French writers to critique notions of European superiority But at others they appropriated Iran as proto European through racialist narratives that reinforced Orientalist stereotypes Drawing on theories of Orientalism and cultural difference this book navigates both sides of this fascinating and complex literary history It is the first major study on the subject
