Filmmakers use the term film language to mean everything they can use to deliver the story most effectively to the audience. This language includes:

- cinematography / camerawork
- mise en scene
- sets, costumes and make-up
- locations
- lighting
- casting
- editing
- music and sound

Explore these various aspects of film language and see how they are used in Romeo and Juliet.

## **TASK 1**

Look closely at the scene where Romeo and Juliet meet at the masked ball.

Why are all the shots in close-up? Why has the director chosen an aquarium for their eyes to meet across?

What is the effect of the water and the fish floating past? How does this sequence contrast with what is going on around them?

## **TASK 2**

Look closely at the scene between Juliet and her father, Fulgencio Capulet, when she opposes his plan for her to marry Paris.

How does the camera intensify this emotional scene? Does the camera linger on one person or go backwards and forwards between the two? What position does the camera take to make Juliet's father appear violent and threatening? What effect do the close-ups have on us, the audience? Do we share anyone's point of view in this scene? If so, how does the camera do this?

## **TASK 3**

Look at the scene in Juliet's bedroom again but this time concentrate on the decor. Make a list of all the objects that you can remember that give you an impression of her age, character, social position and her interests.

## **TASK 4**

Think of locations in the film 'Romeo and Juliet' which emphasize and intensify ideas about the characters and the atmosphere. Look at the scene on the beach where the two gangs meet. Write down your ideas. How is the scene lit? What are the predominant colours? What do you see in the background? Is it day or night? How did the director's choices contribute to the meaning of this particular scene?

## **TASK 5**

Look at the ballroom scene. Pick out some of the details of the costumes. Do you remember how the Capulet parents dressed for the ball? How does this emphasize or extend aspects of their personalities? How are Paris and Tybalt dressed?

Department of Education,1892    **Translanguaging and English as a Lingua Franca in the Plurilingual Classroom** Anna Mendoza,2023-03-09 This book explores multilingual practices such as translanguaging code switching and stylization in secondary classrooms in Hawai i Using linguistic ethnography it investigates how students in a linguistically diverse class including those who speak less commonly taught languages deal with learning tasks and the social life of the class when using these languages alongside English as a lingua franca It discusses implications for teachers from balancing student needs in lesson planning and instruction to classroom management where the language use of one individual or group can create challenges of understanding participation or deficit identity positionings for another The book argues that students must not only be allowed to flex their whole language repertoires to learn and communicate but also be aware of how to build bridges across differences in individual repertoires It offers suggestions for teachers to consider within their own contexts highlighting the need for teacher autonomy to cultivate the classroom community s critical language awareness and create conducive environments for learning This book will appeal to postgraduate students researchers and academics working in the fields of sociolinguistics and linguistic ethnography as well as pre service and in service teachers in linguistically diverse secondary school contexts   **Resources in Education** ,1998-12   **Shakespeare and Higher Education** Sharon A. Brown, Rafael Lara-Aiecio, Dr. Shirley A. Jackson, 2013-03-01 Although educational theories are presented in a variety of textbooks and in some discipline specific handbooks and encyclopedias no publication exists which serves as a comprehensive consolidated collection of the most influential and most frequently quoted and consulted theories There is a need to put such theories into a single easily accessible volume A unique feature of the Handbook is the way in which it

conveys the theories. The organization of the chapters within each section makes the volume an easy to use and understandable reference tool as researchers and practitioners seek theories to guide their research and practice and as they develop theoretical frameworks. In addition to the traditional theories presented the Handbook includes emerging theories for the 21st Century as well as presenting practical examples of the use of these theories in research from dissertations and published articles. An appendix which indicates which theories have instruments associated with them and where those instruments can be found is also included. The Handbook consists of 12 sections. Section I provides the introduction with a focus on what constitutes good theory as well as how theory guides research and practice. The remaining sections address Philosophical Educational Constructs Learning Theory Instructional Theory Curriculum theory Literacy and Language Acquisition Theory Counseling Theory Moral Development Theory Classroom Management Theory Assessment Theory Organizational Theory and Leadership Management Theory. Each section consists of an overview written by the section editor of the general theoretical concepts to be addressed by the chapter authors. Each chapter within the section will include a a description of the theory with goals assumptions and aspects particular to the theory b the original development of and interactions of the theory c validation of the theory d generalizability of the theory across cultures ethnicities and genders e the use and application of the theory f critiques of the theory g any instruments associated with the theory and h two to five particular studies exemplifying particular theories as individuals have used them in theoretical framework of dissertations or published articles and be written by the original theorist or prominent contributors to the theory. The Handbook is intended for graduate students enrolled in research courses or completing theses and dissertations. Additionally professors of all educational disciplines in the social sciences would be an interested audience. There is also potential use of the text as administrators counselors and teachers in schools use theory to guide practice. As more inquiry is being promoted among school leaders this book has more meaning for practitioners.

*Writing and Power* Candace Mitchell, 2015-12-03

This book offers a much needed alternative to the more traditional texts used to teach writing instruction. Grounded in history the book clarifies changing theoretical and practical approaches to teaching writing critically assessing each approach in relation to the social and political movements of the day both within and beyond the university. The author takes us inside the real world of writing instruction not only from the viewpoint of instructor but as seen through the eyes of students struggling to make sense of the expectations of writing class. Mitchell emphasizes that writing entails far more than putting words to paper and delves into contextually variable culturally defined expectations that include multiple linguistic forms both oral and written highlighting the complexity of writing while engaging the reader in lively academic debates about language and society.
