Re: Recommendation for Sharon Westman

Dear Hiring Manager:

I was initially impressed with Sharon Westman's enthusiasm, communication skills and professional demeanour when I hired her four years ago as a customer service rep within JRW Inc.'s call centre. During the two years Sharon reported to me (I have since moved on to a different department), she consistently demonstrated all of these qualities and more, and I heartily endorse her for any customer service position.

Sharon is reliable, dedicated and eternally upbeat. Her ability to calm angry or frustrated customers is unparalleled, and it is because of her excellence in this area that I repeatedly asked her to mentor new employees in the call centre. Sharon multitasks effectively and can handle a high-volume workload. She consistently met or surpassed all weekly call centre metrics (including customer satisfaction, call volume and response time), and her daily written reports were accurate and thorough.

Of particular value to me as a former call center manager was Sharon's team player mind-set, enthusiastic embrace of change, ability to work with minimal supervision and unwavering commitment to exceeding customer expectations. I regularly received unsolicited praise from customers commending Sharon's outstanding level of service, professionalism and follow-through.

his consideration of academic freedom sexism merit tenure and other such highly charged subjects Lewis examines the attitudes of those in universities toward academic qualification The modern rule of thumb has become publish or perish According to Lewis however research and publication may not be such prime considerations after all Two thought provoking chapters are devoted to an examination of letters of recommendation as important factors in hiring and promoting in the academic world Lewis also scrutinizes academic freedom cases from the archives of the American Association of University Professors Other intriguing issues examined by Lewis are how spouses and significant others factor into whether or not a professor gets a promotion a typical day in the life both academic and personal of a professor how the celebrity syndrome has spread to campus discrimination against women and bureaucracy as a contributing factor to campus unrest In the new introduction Lewis affirms that the most apparent changes in higher education since *Scaling the Ivory Tower* was initially published have actually made the campus less meritocratic and less a place where quality academic work is recognized and rewarded One contributing factor is the necessity to consider age gender ethnicity and race in personnel decisions Because many on campus are convinced that academic life can only be improved when the demographics of faculty reflect those in the larger society departments are routinely expected to explain why they did not fill an opening with someone from an underrepresented group While showing some irreverence toward academia *Scaling the Ivory Tower* should also provoke sober consideration of where our colleges and universities are headed This is a significant volume for university administrators academics and graduate students
