Public Health Reports ,1978 Cancer Survivorship Patricia A. Ganz,2007-07-28 cancer survivors have increased in number more than threefold over the last 30 years to the current level of 10 million and growing Among patients diagnosed today nearly two thirds are expected to survive 5 or more years This success may be attributed to the expertise of physicians and nurses from multiple disciplines who precisely execute a complex plan based in clinical research Yet after a period of orchestrated and frequent interaction with healthcare professionals bolstered by the attention and encouragement of family and friends the cancer patient may view the end of treatment with anxiety and concern And what exactly is the plan Just as healthcare providers are expected to keep up to date with the latest in treatment and prevention they must now coordinate and provide comprehensive survivor care This significant text organized and edited by Patricia A Ganz and involving the contributions of over 40 distinguished authors provides a greatly needed resource for survivor care today and tomorrow The current attention on cancer survivorship represents a consequence of burgeoning survivor numbers a corpus of data on late treatment effects in children and adults and increased public and professional awareness Dr Ganz and many of the contributors to this comprehensive text pioneered cancer survivorship and they must justifiably be proud that their advocacy and commitment to survivor care and research have resulted in in depth reports by the President's Cancer Panel several Institute of Medicine studies and this timely text
