Whether you are directly involved in recruiting new staff or responsible for coordinating the process, this book provides a thorough understanding of the skills and knowledge required to effectively manage these essential HR functions. The book begins with an exploration of existing recruitment and onboarding policies and procedures, guiding readers on how to identify and evaluate them in the context of their organization. It provides detailed guidance on advertising vacant positions in compliance with legislation and organizational policies, consulting with specialists when necessary, and adhering to selection procedures that meet legal and organizational standards. Additional chapters address the importance of timely and accurate job offers and contracts, providing new appointments with relevant advice and ensuring that onboarding processes are consistently applied across the organization. Handbook of People in Project Management is a complete guide to the human dimensions involved in projects. The book is a unique and rich compilation of over 60 chapters about project management roles and the people who sponsor, manage, deliver work in or are otherwise important to project success. It looks at the people issues that are specific to different sectors of organization: public, private and third sector; the organization of people in projects, both real and virtual; the relationship between people, their roles and the project environment; and the human behaviours and skills associated with working collaboratively. Thus, this comprehensive and innovative handbook discusses all the important topics associated with employing, developing and managing people for successful projects. The contributors have been drawn from around the world and include experts ranging from practising managers to academics and advanced researchers. The Handbook is divided into six parts which begin with management and project organization and progress through to more advanced and emerging practices.
