Social class, ethnicity, and gender have always been considered as possible barriers to equality of opportunity in education. This issue is always present in the movie. The main character, Mark, encounters numerous difficulties with employment because of his skin color. Although it seems that being a Negro did not prevent him from getting all-round education and an academic degree, he is not accepted to work anywhere besides low-rate school for difficult children.

There is little evidence of educational inequality conditioned by gender. In Mark's class there are both boys and girls, and the latter seem to be treated as equals. The relationship between teachers and students has considerable influence on the students' performance. Teacher's expectations have strong impact on the student's performance. The maturity with which Mark begins to treat the students encourages them to make progress and excites their interest. Trust and tolerance displayed by the teacher and his respect of the student's personalities serve as effective stimuli and improve their academic performance. Individualism and liberty that are often viewed as the main

The Secret History is a brilliant and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
