particular comparisons between today's challenges and the Weimar Republic the post World War I democratic German government that fell to Nazism in the 1930s Just as in Weimar which faced myriad crises inextricably bound up with global systems the singular dilemmas of the twenty first century pandemic disease recession mass migration the destabilizing effects of large scale democracy and great power conflicts and the intimate bonds created by technology mean that every disaster in one country has the potential to become a global crisis too According to Kaplan the solutions lie in prioritizing order in governing systems arguing that stability and historic liberalism rather than mass democracy per se will save global populations from an anarchic future Waste Land is a bracing glimpse into a future defined by the connections afforded by technology but with remarkable parallels to the past Just as it did in Weimar Kaplan fears the situation may be spiraling out of our control unless our leaders act first
