Re: Tuition Installment Payment

Dear :

We are writing to inform you that your child's next tuition installment of \$ is due {date}. The last three payments have been late and we are concerned if there is a matter that you need to discuss with us. We want to maintain a respected and responsible financial relationship with you and your child. However, this includes timely payments. Please contact us if there are any questions.

Sincerely,

N A M E

Sample Letter For College Tuition Support:

The Downsizing of Economics Professors Steven Payson, 2017-10-24 The number of economics professors now teaching at universities will decline substantially over the next couple of decades This will happen for one main reason the advent of distance learning especially in the form of Massive Open Online Courses MOOCs which enable a single professor to lecture to tens of thousands of students Other academic fields will undoubtedly encounter similar reductions in their numbers of professors However as this book argues at several levels academic economics is the one profession that is most qualified to study and address the topic In this sense it is the one profession that should best recognize the economic benefits of this transition which this book describes and take responsibility for leading the transition among all academic fields Unfortunately the position espoused by several academic economists has been against this inevitable transition a position that politically upholds their employment and the status of their institutions They have asserted that MOOCs lower the quality of education and threaten the financial viability of traditional universities Based on extensive evidence and analysis however this book argues that their position untenable Their position is hypocritical as well given the fact that economics professors more than anyone else have upheld the idea that jobs should be lost and new ones should be gained in response to technological changes that promote economic efficiency There is also irony in the fact that the high tuitions required to maintain traditional classrooms effectively deny a college education to those who cannot afford it Thus unsound arguments that traditional lectures are needed to preserve the quality of education actually do not improve the quality of education but have the only real effect of denying education to many people who would otherwise be able to receive it To address this topic comprehensively the book goes deep into fundamental questions about what economics professors really do with their time and energy and what they should be doing in the best interests of their students and of society These are areas that the profession has needed to address for a long time but has failed to do so Resources in Education ,2001-04 *Research in Education* ,1968-07 Winning Scholarships For College, Third Edition Marianne Ragins, 2004-04 A comprehensive guide to finding and winning scholarships from a student who won more than 400 000 for college In this thoroughly revised third edition of *Winning Scholarships for College* Marianne Ragins proves that it s not always the students with the best grades or the highest SAT scores who win scholarships Whether you are in high school returning to or currently enrolled in college planning to study abroad or interested in pursuing an M B A J D or M D this easy to follow guide will show you the path to scholarship success This is one of the most comprehensive books on winning scholarships available it reveals where and how to search for funds and takes you step by step through the application process The third edition includes information on the 2001 education tax breaks college savings funds service scholarships and many new sources of scholarship money Written from one student to another *Winning Scholarships for College* also includes hundreds of invaluable resources for uncovering scholarship opportunities information on using the Internet to make your search easier an in depth look at how financial aid
