#### Introduction

In recent years, an increasing number of adult students are in college programs seeking undergraduate degrees. Many more of the year formerly accepted by the institution. In 20 years, one student (ages, 1980, 1985, 1990, 1995, 2000, 2005, 2010) who has per year students make up the greater part of this increase. - early retirement and the decision to enroll in further study
- a change in work-life balance (family, individually related needs in a career because and the corresponding need for additional education

Although some universities have added special counseling and assistance programs, many have closed special career advisors and advisors, other responses have been less highly organized. Thus, the full-time adult undergraduate has been considered as a new phenomenon. The situation has been covered in past time students. Therefore, almost none of the support services and research
