Securing Global Transportation Networks:

Securing Global Transportation Networks Luke Ritter, 2007 *Securing Global Transportation Networks* demonstrates how improved security processes can create value across all the business functions throughout an entire value chain. Readers will learn a whole new security management philosophy as explained through domestic and international examples and case studies ranging from major retailers such as Home Depot to shipping giants such as Maersk and FedEx. This book also looks ahead to future developments and best practices for the future. If you're charged with making or evaluating transportation security decisions, you'll find the tools you need to succeed and prosper with the Total Security Management approach. Explains globalization's impact on transportation networks. Creates a framework for realizing a return on security investments by integrating it as a core business process. Details how transportation firms, investors, and insurance companies can measure and reward smart security practices that protect a firm's fixed assets, assets in transit, brand equity, and goodwill, and human capital.

The End of the Beginning

Excellent book written by three veterans of the industry and featuring a foreword by Tom Ridge, the first Secretary of Homeland Security. The authors develop in the book the concept of Total Security Management and use compelling case studies to illustrate their point that a secure business is a successful business. The book further demonstrates the financial benefits of investing in security and also how to protect physical corporate assets, whether they be fixed or goods in transit. This book is a must for anyone working in or around global transportation industries.

Ramsay,Linda Kiltz,2014-01-07 An essential casebook that critically examines real life situations in homeland security including terrorism emergency management and environmental security to better understand the theories and practices of the discipline Export Control Challenges Associated with Securing the Homeland National Research Council,Policy and Global Affairs,Development, Security, and Cooperation,Committee on Homeland Security and Export Controls,2012-04-21 The homeland security mission of the Department of Homeland Security DHS is paradoxical Its mission space is uniquely focused on the domestic consequences of security threats but these threats may be international in origin organization and implementation The DHS is responsible for the domestic security implications of threats to the United States posed in part through the global networks of which the United States is a part While the security of the U S air transportation network could be increased if it were isolated from connections to the larger international network doing so would be a highly destructive step for the entire fabric of global commerce and the free movement of people Instead the U S government led by DHS is taking a leadership role in the process of protecting the global networks in which the United States participates These numerous networks are both real e g civil air transport international ocean shipping postal services international air freight and virtual the Internet international financial payments system and they have become vital elements of the U S economy and civil society Export Control Challenges Associated with Securing the Homeland found that outdated regulations are not uniquely responsible for the problems that export controls post to DHS although they are certainly an integral part of the picture This report also explains that the source of these

problems lies within a policy process that has yet to take into account the unique mission of DHS relative to export controls Export Control Challenges Associated with Securing the Homeland explains the need by the Department of Defense and State to recognize the international nature of DHS's vital statutory mission the need to further develop internal processes at DHS to meet export control requirements and implement export control policies as well as the need to reform the export control interagency process in ways that enable DHS to work through the U S export control process to cooperate with its foreign counterparts *Technological Solutions for Modern Logistics and Supply Chain Management* Luo, ZongWei,2013-01-31 *Technological Solutions for Modern Logistics and Supply Chain Management* highlights theories and technological growth in applied research as well as advances in logistics supply chains and industry experiences Aiming to enhance the expansions made towards an efficient and sustainable economy this book is essential for providing researchers practitioners and academicians with insight into a wide range of topics Department of Homeland Security Appropriations for 2012 United States.
