Divided Province Greg Albo, Bryan M. Evans, 2019-02-28 No government jurisdiction in Canada has so radically transformed its public policies over the past decades as Ontario and yet the province has also maintained a striking degree of political stability in its party system Since the 1990s neoliberalism has been the point of reference in constructing policy agendas for all of Ontario's political parties It has guided the strategy for governance of the dominant Liberal Party since 2003 even as it divides the province between workers and employers north and south rural and urban and racialized minorities and the majority population With a focus on the governments of Mike Harris Dalton McGuinty and Kathleen Wynne *Divided Province* brings together leading researchers to dissect the province's public policies since the 1990s Presenting original state of the art research the book demonstrates that although the Conservative government of Mike Harris implemented the sharpest and most profound shift towards the establishment of a neoliberal regime in the province the subsequent Liberal governments consolidated that neoliberal turn The essays in this volume explore the consequences of this ideological turn across a spectrum of policies including health education poverty energy employment manufacturing and how it has impacted workers women First Nations and other distinct communities The first book to offer a comprehensive critical account of neoliberalism in Ontario *Divided Province* overturns conventional readings of the province's politics and suggests that building a more democratic and egalitarian alternative to the current orthodoxy requires nothing less than a radical rupture from existing policies and political alliances Without such a decisive break political space may well open up again for the populist right

Education and Theatres Michael Finneran, Michael Anderson, 2019-09-25 This volume is the first book to map a broad range of practices and critically examine the impact of education and outreach programmes in theatres and theatre companies around the globe This innovative volume looks specifically at the manner in which theatres and theatre companies engage in educational outreach and community work An array of global case studies examines a wide range of existing and innovative practices and scrutinises how this work achieves successful results and delivers impact and outcome on investment The editors set the scene briefly in terms of the history of education in theatre organisations and then move on to chart some of the difficulties and challenges associated with this work as well as looking into the conceptual issues that need to be interrogated so that we may understand the impact of outreach and education work on the communities and audiences it aims to reach A range of theatre practitioners and academics describe their work its background and what the authors understand to be successful outcomes for both the participants and the theatres Finally the book offers suggestions for both practitioners and researchers regarding further development in this work
