Disciplining the Holocaust Karyn Ball, 2008-10-22

Disciplining the Holocaust examines critics efforts to defend a rigorous and morally appropriate image of the Holocaust. Rather than limiting herself to polemics about the proper approach to traumatic history, Karyn Ball explores recent trends in intellectual history that govern a contemporary ethics of scholarship about the Holocaust. She examines the scholarly reception of Goldhagen's *Hitler's Willing Executioners*, the debates culminating in Eisenman's *Memorial to the Murdered Jews of Europe* in Berlin, Lyotard's response to negations of testimony about the gas chambers, psychoanalytically informed frameworks for the critical study of traumatic history, and a conference on feminist approaches to the Holocaust and genocide. Ball's book bridges the gap between psychoanalysis and Foucault's understanding of disciplinary power in order to highlight the social implications of traumatic history.

Lessons and Legacies XV Erin McGlothlin, Avinoam Patt, 2024-05-15. The fifteenth volume in the *Lessons Legacies* series featuring multidisciplinary research in the Holocaust and Jewish cultural history on the theme of Global Perspectives and National Narratives. The fourteen chapters included in this volume manifest three broad categories: history, literature, and memory. These chapters continue the recent trend in Holocaust Studies of a focus on local history, integrating specific regional and national narratives into a more global approach to the event. Newer studies have continued to incorporate what was once termed the periphery into a more global examination of the experiences of Jewish refugees in flight to Latin America, Africa, and the Soviet Union. At the same time, very specific local studies deepen our knowledge of the mechanics of genocide along with the experiences of refugees in flight and the subsequent dimensions of Holocaust memory and representation. New research on Holocaust literature continues to unearth unexamined texts from the period of the war itself, which can shed light on Jewish responses to persecution and strategies for survival. The study of Holocaust testimonies continues to grapple with the challenge of language: how to convey through the limits of human language the depths of barbarity to an audience that could never fully understand what they had not personally experienced. Likewise, literary studies continue to incorporate texts that were once considered outside the standard canon of Holocaust literature, such as science fiction and children's literature. The tension between local and global perspectives can also be seen quite clearly in what the volume's editors understand by the term memory studies or new approaches to research on museums and memorials. The very specific nature of collective memory on

the national level continues to be the site of the contested politics of memory A number of the chapters in this volume engage with the conflict of monuments and memorials museums attempts to resolve provenance issues questions around the ethics of Holocaust tourism and the inclusion of new technologies and digital survivors into the memorial landscape *The Attack of the Blob* Hanna Fenichel Pitkin, 2021-02-16 The European intellectual Hannah Arendt worried about the tendency of social structures to take on a life of their own and paralyze individual action Pitkin is determined to trace our problems to the actions of individuals This book is thus a battle of wits A vivid sketch of the conflict between two basic outlooks Library Journal One leaves this book feeling enriched and challenged Pitkin prompts us to rethink our understanding of Arendt and to demythologize the pervasive sense of political helplessness Arendt herself sought so hard to articulate A cause for celebration Peter Baehr Times Literary Supplement Arendt is certainly among the most original and outstanding political theorists of the twentieth century It is difficult to imagine a hostile critic examining more effectively than Pitkin Arendt's concept of the social for hostility would inhibit the acquisition of the mastery of Arendt's texts that Pitkin displays at every turn Peter Berkowitz New Republic

Answers for the Honest Skeptic Ted Even, 2022-10-03 It is true that mankind itself has probably always been characterized with the main desire to determine just what spiritual truth really is. For centuries and centuries, highly educated philosophers and religious men alike have always stood toe to toe disagreeing on spiritual truth. Since they cannot all be right, this would strongly indicate that education, religious persuasion, or even intelligence has little to do with our discovery of the real spiritual truth. For if these things were truly critical, then obviously the spiritual intellectual giants of history would have agreed on spiritual truth long ago. In this work, author Ted Even endeavors to show that the disagreeing intellectuals/skeptics of the past only serve to reinforce Christ's radical statement about our need to just become like little children in order to discover the spiritual truth, and that literally everyone has the same opportunity to enter the kingdom of heaven on that basis. However, while super intelligence or big degrees may not be necessary, the discovery of spiritual truth does require just one very reasonable quality of heart which little children have always possessed. Find out just what this basic quality of heart is as you continue your search for spiritual truth within this simple-to-understand work which only leaves the real spiritual truth left standing.
