Text Book for Dyke's Home Study Course of Automobile Engineering Andrew Lee Dyke,1920 *Die Before You Die* Anab Whitehouse,2018-11-06 This book explores the significance of a saying of the Prophet Muhammad namely Die before you die from the perspective of an individual who has been journeying along a path of discovery for more than 50 years The contents of this book might be one of the most unique intriguing and challenging accounts of Islam and the Sufi path that has been published in North America Just a little over a year ago the author of this book died several times in the emergency room of a local hospital This book starts with those events and then expands outward to talk about an array of experiences including spiritual abuse that has shaped his understanding of Islam the Sufi path life and himself In addition the book critically reflects on a series of issues that have relevance in today's world These ideas range from Sam Harris to topics such as Education religion mysticism science and shari'ah While each of the book's four sections has something to offer readers with respect to assisting a person to work toward developing a deeper understanding of Islam and its mystical dimension as well as a number of other topics the book's section on shari'ah might prove to be the most illuminating and

thought provoking facet of the book More specifically Dr Whitehouse introduces readers to a way of engaging the topic of shari ah that is quite different from what is normally thought of in conjunction with that term and if God wishes could serve as a way of helping to bring the Muslim world and the West closer together in a variety of constructive and harmonious ways
