Fourteen competitors. Seven days. Everywhere to hide but nowhere to run. Come out, come out wherever you are. *Found Footage Horror Films* Peter Turner, 2019-01-28 This book adopts a cognitive theoretical framework in order to address the mental processes that are elicited and triggered by found footage horror films. Through analysis of key films the book explores the effects that the diegetic camera technique used in such films can have on the cognition of viewers. It further examines the way in which mediated realism is constructed in the films in order to attempt to make audiences either misread the footage as non-fiction or more commonly to imagine that the footage is non-fiction. Films studied include *The Blair Witch Project*, *Rec*, *Paranormal Activity*, *Exhibit A*, *Cloverfield*, *Man Bites Dog*, *The Last Horror Movie*, *Noroi*, *The Curse*, *Autohead* and *Zero Day*. This book will be of key interest to Film Studies scholars with research interests in horror and genre studies, cognitive studies of the moving image and those with interests in narration, realism and mimesis. It is an essential read for students undertaking courses with a focus on film theory, particularly those interested specifically in horror films and cognitive film theory. **Digital Horror** Xavier Aldana Reyes, Linnie Blake, 2015-10-13 In recent years the ways in which digital technologies have come to shape our experience of the world has been an immensely popular subject in the horror film genre. Contemporary horror cinema reflects and exploits the anxieties of our age in its increasing use of hand-held techniques and in its motifs of surveillance, found footage, fictional films that appear real, comprising discovered video recordings left behind by victims, protagonists and digital haunting when ghosts inhabit digital technologies. This book offers an exploration of the digital horror film phenomenon across different national cultures and historic periods, examining the sub-genres of CCTV horror, technological haunting, snuff films, found footage and torture porn. Digital horror, it demonstrates, is a product of the post-9/11 neo-liberal world view characterised by security paranoia, constant surveillance and social alienation. Digital horror screens its subjects via the transnational technologies of our age such as the camcorder and CCTV and records them in secret footage that may one day be found. **Troubling Masculinities** Glen Donnar, 2020-07-23 *Troubling Masculinities: Terror, Gender and Monstrous Others in American Film Post 9/11* is the first multigenre study of representations of masculinity following the emergence of violent terror as a plot element in American cinema after September 11, 2001. Across a broad range of subgenres including disaster, melodrama, monster movies, postapocalyptic science fiction, discovered footage and home invasion, horror, action, thrillers and frontier westerns, author Glen Donnar examines the impact of terror. Others, from Arab terrorists to giant monsters, especially in relation to cinematic representations in earlier periods of national turmoil. Donnar demonstrates that the reassertion of masculinity and American national identity in post-9/11 cinema repeatedly unravels across genres. Taking up critical arguments about Hollywood's attempts to resolve male crisis through Orientalizing figures of terror, he shows how this failure reflects an inability to effectively extinguish the threat or frightening difference of terror. The heroes in these

movies are unable to heal themselves or restore order often becoming as destructive as the threats they are supposed to be fighting Donnar concludes that interrelated anxieties about masculinity and nationhood continue to affect contemporary American cinema and politics By showing how persistent these cultural fears are the volume offers an important counternarrative to this supposedly unprecedented moment in American history *Found Footage Horror Films* Alexandra Heller-Nicholas,2014-05-08 As the horror subgenre du jour found footage horror s amateur filmmaking look has made it available to a range of budgets Surviving by adapting to technological and cultural shifts and popular trends found footage horror is a successful and surprisingly complex experiment in blurring the lines between quotidian reality and horror s dark and tantalizing fantasies Found Footage Horror Films explores the subgenre s stylistic historical and thematic development It examines the diverse prehistory beyond Man Bites Dog 1992 and Cannibal Holocaust 1980 paying attention to the safety films of the 1960s the snuff fictions of the 1970s and to television reality horror hoaxes and mockumentaries during the 1980s and 1990s in particular It underscores the importance of The Blair Witch Project 1999 and Paranormal Activity 2007 and considers YouTube s popular rise in sparking the subgenre s recent renaissance **Secrets to Becoming a Successful Author Boxset** Maggie McVay Lynch,2018-11-27 Frustrated with the plethora of conflicting information on how to self publish Wouldn t it be wonderful to sit down with someone who has already made the mistakes done the analysis and will provide you the short cuts the secrets about the things that work Now you have that chance with the Career Author Secrets series Indie Publishing Self Publishing has changed dramatically in the past five years There are now new easier tools to use for every part of the process editing formatting distribution sales and analysis This boxset contains three books Secrets Every Author Should Know Publishing Basics It contains everything a DIY author needs to get her book from manuscript to professional publication in both ebook and print including Why books don t sell Options for DIY or contracting professionals The truth about ISBNs 2 Use Social Media and Email lists to Engage with Your Readers and 3 Plan for Effective Campaigns for both Book Launches and Backlist Rejuvenation throughout the year In addition this book provides techniques to Distinguish specific groups of readers most likely to buy your novel or nonfiction book Understand your competition and the advantages that your book offers Clarify hooks that capture attention of the media reviewers and readers Identify where and how to reach readers reviewers and media Create and implement a consistent brand throughout all marketing efforts Effectively select from 100 options the appropriate marketing tactics and timing that matches your book intentions and values Maximize organic reach and stay to a budget of less than 100 per book campaign Develop a long term online marketing plan **The Business of Creativity** Brian Moeran,2016-06-16 How does a group of people brought together because of their diverse skills and professional knowledge set out to be creative How are ongoing tensions between beauty fame and money resolved In The Business of Creativity Brian Moeran a leading scholar and writer on the creative industries takes the sacred relic of creativity out of the crypt and airs it in the ethnographic alley In contrast to the persistent image of

*The Fictional Dimension of the School Shooting Discourse* Silke

Brasemann, 2019-06-17 Ever since the 1990s school shootings have shocked the public in their brutality their suddenness and their inexplicability While film and literature have played a role in the heated debates about so called copycat crimes the growing body of fictionalizations of school shootings has been neglected thus far However in a discourse in which the boundaries between fiction and reality are increasingly blurred this book shows how fiction shapes and structures challenges and disrupts cultural processes of meaning making Hence for a better understanding of the school shooting phenomenon the relevance of fiction on all levels of discourse construction requires thorough analysis This book therefore develops a new approach to the role of fiction for contemporary forms of excessive violence By combining narrative theory with insights from sociology and other disciplines it provides the means for apprehending and describing the relevance of fiction for contemporary discourses Furthermore it provides exemplary analyses of more specific functions of literary and filmic fictionalizations of school shootings between 2000 and 2016
