Standardized assessments have long been part of the educative experience for students around the world The high stakes nature of these tests can have damaging and enduring effects for public school systems particularly the youth With the adoption of Common Core State Standards and mandated state wide accountability measures high stakes tests like the PARCC gained quick and controversial notoriety The high stakes discourse has been dominated by politicians educators and parents Notably absent from this dialogue are the voices of those whom are impacted the most students Largely influenced by Critical Pedagogy this research sheds light on the negative punitive and often arbitrary nature of testing in schools The paramount intention of this publication is to raise awareness of student experiences and perspectives of standardized testing The High Stakes of Testing analyzes the experiences relationships thoughts ideas and opinions students have with standardized assessment measures Interviews with seven students in Grades 3 5 and 8 are examined through a governmentality lens to reveal the ways in which the youth are manipulated regulated and disciplined to view standardized testing as a natural part of what it means to be a public school student It is only when we can begin to see and appreciate how our youth interact with the omnipresent testing in our public schools can we begin to envision changing these accountability practices *TIME For Kids: Practicing for Today's Tests Language Arts Level 3* Jennifer Prior,2015-02-06
