The Body Book Donald M. Silver, 1993 With step by step directions lessons projects cooperative learning activities and more here are reproducible cut and paste patterns for assembling and understanding the systems and organs of the human body

The Taking and Displaying of Human Body Parts as Trophies by Amerindians Richard J. Chacon, David H. Dye, 2007-08-21 This edited volume mainly focuses on the practice of taking and displaying various body parts as trophies in both North and South America The editors and contributors which include Native Peoples from both continents examine the evidence and causes of Amerindian trophy taking Additionally they present objectively and discuss dispassionately the topic of human proclivity toward ritual violence This book fills the gap in literature on this subject

The Giant Encyclopedia of Theme Activities for Children 2 to 5 Kathy Charner, 1993 This popular potpourri of over 600 classroom tested activities actively engages children s imaginations and provides many months of learning fun Organized into 48 popular themes from Dinosaurs to Circus to Outer Space these favorite activities are the result of a nationwide competition Join the ranks of teachers who are already using and loving this valuable resource

Characteristics and Needs of Living Things Jennifer Lawson, 2001 The three lessons in this module introduce students to the characteristics and needs of humans other animals and plants Also included Materials lists Activity descriptions Questioning techniques Activity centre and extension ideas Assessment suggestions and Activity sheets and visuals The module offers a detailed introduction to the Hands On Science program guiding principles implementation guidelines an overview of the skills that young students use and develop during scientific inquiry a list of children s books and websites related to the science topics introduced and a classroom assessment plan with record keeping templates

Everybody Has a Body Robert E. Rockwell, Robert A. Williams, Elizabeth A. Sherwood, 1992 Children will gain mastery of the basic science process skills observation inference and prediction while exploring the first environment they encounter their very own bodies This unique book connects literacy to science in the early childhood classroom and promotes the development of systematic decision making in young children

My Body Thematic Unit Grace Jasmine, 1995 Contains reproducible pages of lesson ideas

How Children Learn Terese Fayden, 2015-11-17 The inspirational stories of young learners in this book discredit assumptions behind recent educational reforms including high stakes testing and No Child Left Behind policies The experiences of the American Indian children and the author a kindergarten teacher challenge the widely held assumption that minority children enter school at risk Deficit theory assumes that minority children are responsible for their failure by cultural deficiency or family ineptitude Fayden vividly shows how truly equitable treatment of minority children can improve students inherent abilities to learn and can result in higher achievement for minority and all young children
