

Black Queer Radical Books

A Black man is shown from the chest up, looking directly at the camera with a serious expression. He is behind vertical prison bars. His hands are clasped in front of his chest. The lighting is dramatic, with a bright light source from the right creating a strong highlight on his face and chest.

Jail Time Michael Frantz,2009-03 Jail Time What you need to know Before you go to federal pr i son Jail Time was a book I never wanted to write Federal Prison was a place I never wanted to be Sometimes things just happen that you really can t explain or even know why they happened They just do Life is funny that way one day you are on top of the world and

the next day you're in a bottomless pit you think. But later you discover that the pit's bottom is even deeper. There are many challenges facing those individuals entering federal prison. These challenges are not easy but they are controllable. Controllable if you have the proper knowledge, resources, and motivation. The motivation is to get home to your family as soon as possible. This is where Jail Time can help. Jail Time offers solutions to the problems that men and women facing federal incarceration are confronted with. Jail Time provides a wealth of information to help families get through their ordeal together and get the offender back home in the shortest possible amount of time. Born into an impoverished and broken family in Ohio, Michael Frantz studied diligently and graduated with honors from Denison University in Granville, Ohio. He continued his studies and earned a postgraduate degree from Ohio Northern University College of Pharmacy with highest honors. With little or no money, he started his own home medical equipment business in 1980 and grew it in sales to over 7 000 000 a year. At the height of his business, he had six locations in five different Ohio cities. In October of 2002, the FBI raided all six of his stores in what was to become a two-year legal and emotional nightmare. They alleged Medicare and tax fraud. In 2004, Mr. Frantz reluctantly accepted a plea agreement and was eventually sentenced in July of 2005 to 51 months in the Federal Prison Camp (FPC) in Miami, Florida. He spent nearly 16 months there. Later, he was transferred to the adjacent low security Federal Correctional Institution (FCI). In 2008, he won his appeal and was released from federal prison on July 18, 2008, after serving nearly 36 months in federal confinement. This, as he likes to say, was a life and career-changing experience.

Prisoners' Self-Help Litigation Manual John Boston, Daniel E. Manville, 2010-09-27. *Prisoners Self Help Litigation Manual* in its much anticipated fourth edition is an indispensable guide for prisoners and prisoner advocates seeking to understand the rights guaranteed to prisoners by law and how to protect those rights. Clear, comprehensive, practical advice provides prisoners with everything they need to know on conditions of confinement, civil liberties in prison, procedural due process, the legal system, how to litigate, conducting effective legal research, and writing legal documents. *The New Partridge Dictionary of Slang and Unconventional English: J-Z* Eric Partridge, 2006. Entry includes attestations of the head word's or phrase's usage, usually in the form of a quotation. Annotation. 2006. Book News, Inc., Portland, OR. booknews.com. *Mammal Societies* Tim Clutton-Brock, 2016-04-25. The book aims to integrate our understanding of mammalian societies into a novel synthesis that is relevant to behavioural ecologists, ecologists, and anthropologists. It adopts a coherent structure that deals initially with the characteristics and strategies of females, before covering those of males, cooperative societies, and hominid societies. It reviews our current understanding both of the structure of societies and of the strategies of individuals; it combines coverage of relevant areas of theory with coverage of interspecific comparisons, intraspecific comparisons, and experiments; it explores both evolutionary causes of different traits and their ecological consequences; and it integrates research on different groups of mammals with research on primates and humans, and attempts to put research on human societies into a broader perspective. *Women's Prison* Gene Kassebaum, 2017-07-28. A thoroughly researched, pioneering

work based on personal interviews with inmates and prison personnel and on data compiled from questionnaires and inmate record files Women s Prison reveals that homosexual liaisons are the primary foundation of the social structure of female inmates shows that homosexual behavior can be a superficial kind of adjustment to particular situational privations amplifies and broadens the application of earlier findings on men s prisons opens the way for future studies involving the delineation of homosexual roles in the free community This study began with both of the authors interest in gathering data on women in prison to see whether there were female prisoner types consistent with the reported characteristics of male prisoners Early in the course of this study it became apparent that the most salient distinction to be made among the female inmates was between those who were and those who were not engaged in homosexual behavior in prison and further of those who were so involved between the incumbents of masculine and feminine roles It has become increasingly apparent that prison behavior is rooted in more than just the conditions of confinement Unlike their male counterparts who establish the so called inmate code women prisoners suffer intensely from the loss of affectional relationships and form homosexual liaisons as the primary foundation of their social organization The great majority of homosexually involved inmates have their first affair in prison returning to heterosexual roles outside prison Women s Prison is a revealing study of social structure and homosexuality for sociologists of vital interest to social workers parole officers and chaplains dealing with female inmates as well as penologists and criminologists and provocative reading for the non specialist **POW: Prisoner of Washington** D. Waltz,2024-08-20 Ever wonder how you d fare in federal prison For Indiana State Senator Brent Waltz this question became a shocking reality After spending sixteen years serving his community in the Indiana Senate he found himself being targeted by federal prosecutors who hoped he d assist them in indicting his longtime friend a wealthy Donald Trump supporter and fundraiser When Waltz refused those same prosecutors turned their attention toward him resulting in a ten month sentence for an alleged campaign finance violation Waltz s 176 days incarcerated in the Ashland Federal Correctional Institution provided him far better insight into the American justice system than anything he learned as a senator On his eightieth day at Ashland after being locked in an 8 by 6 cell for ten days straight Waltz s fellow inmates proclaimed him the prison shot caller From this vantage point Waltz decided to record his firsthand account of being locked in federal prison He shares the widespread racism and abuse by guards inadequate medical care for inmates and rampant drug smuggling while also including some of the more humorous moments from his ten month sentence Rather than being outraged by his treatment Waltz presents POW Prisoner of Washington in hopes that future leaders will demand better oversight of our justice system and the prosecutors who use their discretion to attack those with whom they view as dangerous to the political status quo and their own power Sharing This Walk Karina Biondi,2016-10-12 The Primeiro Comando do Capital PCC is a S o Paulo prison gang that since the 1990s has expanded into the most powerful criminal network in Brazil Karina Biondi s rich ethnography of the PCC is uniquely informed by her insider outsider status Prior to his acquittal Biondi s husband was

incarcerated in a PCC dominated prison for several years During the period of Biondi s intense and intimate visits with her husband and her extensive fieldwork in prisons and on the streets of S o Paulo the PCC effectively controlled more than 90 percent of S o Paulo s 147 prison facilities Available for the first time in English Biondi s riveting portrait of the PCC illuminates how the organization operates inside and outside of prison creatively elaborating on a decentered non hierarchical and far reaching command system This system challenges both the police forces against which the PCC has declared war and the methods and analytic concepts traditionally employed by social scientists concerned with crime incarceration and policing Biondi posits that the PCC embodies a politics of transcendence a group identity that is braided together with but also autonomous from its decentralized parts Biondi also situates the PCC in relation to redemocratization and rampant socioeconomic inequality in Brazil as well as to counter state movements crime and punishment in the Americas

Murray,2022-09-20 In a society that aims above all to safeguard life how might we reckon with ethical responsibility when we are complicit in sacrificial economies that produce and tolerate death as a necessity of life Arguing that biopower can be fully exposed only through an analysis of those whom society has let die Stuart J Murray employs a series of transdisciplinary case studies to uncover the structural and rhetorical conditions through which biopower works These case studies include the concept of sacrifice in the war against COVID 19 where emergent cultures of pandemic resistance are explored alongside suicide bombings and military suicides the California mass hunger strikes of 2013 legal cases involving preventable and untimely childhood deaths exposing the irreconcilable claims of anti vaxxers and Indigenous peoples and the videorecording of the death of a disabled Black man Murray demonstrates that active resistance to biopower inevitably reproduces tropes of making live and letting die His counter to this fact is a critical stance of disaffirmation one in which death disrupts the politics of life itself A philosophically nuanced critique of biopower *The Living from the Dead* is a meditation on life death power language and control in the
