New Modeling Concepts for Today's Software Processes Jürgen Münch, Ye Yang, Wilhelm Schäfer, 2010-06-30 2010 was the first time that the International Conference on Software Process was held autonomously and not co-located with a larger conference. This was a special challenge and we are glad that the conference gained a lot of attention, a significant number of contributions and many highly interested participants from industry and academia. This volume contains the papers presented at ICSP 2010 held in Paderborn, Germany during July 8-9, 2010. ICSP 2010 was the fourth conference of the ICSP series. The conference provided a forum for researchers and industrial practitioners to change new research results, experiences and findings in the area of software and system process modeling and management. The increasing distribution of development activities, new development paradigms such as cloud computing, new classes of systems such as cyber physical systems and short technology cycles are currently driving forces for the software domain. They require appropriate answers with respect to process models and management suitable modeling concepts and an understanding of the effects of the processes in specific environments and domains. Many papers in the proceedings address these issues. **The**

Outsourcing Manual Robert White, Barry James, 2017-07-05 Outsourcing is becoming an accepted arrangement for all non-core business functions. The devil though lies in the detail and many users are failing to secure maximum benefit through unfamiliarity with the implications and ignorance of the potential pitfalls. The book is based on the templates used by Lucidus and covers planning contracts and managing the process. Practical guidance is given for each stage and the text includes some extended case studies. *Goal-oriented Business Process Modeling* Ilia Bider, Paul Johannesson, 2005 The objective of this e-book is to try to clarify the connection between the notions of goal and business process. The issue is a follow-up to the discussions at the Workshop on Goal Oriented Business Process Modelling held in London on 2 September 2002. The papers cover a wide spectrum of topics related to the notions of goals in the business process domain. **Design for**

Configuration Askko Riihahuhta, Antti Pulkkinen, 2012-12-06 Product Structuring for Design Reuse Product Platform systems Configuration and Modularisation is gaining growing attention in global operating companies as means to enhance productivity in manufacturing of customised product variants. In that situation it was a great opportunity to get the 5 Product Structuring Workshop to Tampere. The special theme of the workshop was chosen Design for Configuration. We see that Knowledge Systematisation is an important research area for Product Structuring. We made a decision to apply Knowledge Systematisation for the workshop itself. We used the small group working method Double Team Method in workshop discussions for creating added values based on presented papers and after workshop we have made a synthesis.

for crystallizing results from papers and group works On the behalf of organisers I thank for the enthusiastic participation on the all of workshop and Finnish Academy and Tampere Centre of Expertise for stages funding the workshop and publication of this book I am sure that all participants would like to join to my many thanks for the workshop secretary Ms Jenni Kauppila for her efficient organisation work After workshop she has made excellent work as our editorial secretary
